The Mars Synodic Cycle interpretation originated from Daniel Giamario in the late 1990s. Contributions from Erik Roth are also presented here.

4th Planet from the Sun

Mars represents the “Masculine Principle”. For men, it is the man they are intended to be in this lifetime.

For women, it is a symbol of their longing for the “other” as well as a large part of their “inner other”

Mars is looked at as neither good nor bad. It is seen as a “progressive” part of a person’s Natal Chart

Considered to be treated as a “personal planet” on a person’s natal chart

What does Mars mean in Shamanic Astrology?

Mars Archetypes

- The Natal Mars sign is the most important factor when defining the role of the masculine in a person’s life. Essentially, there are 12 masculine “types” but a wide variety of each type exists
- Prior to Greco-Roman eras, Mars was known by many other names around the world and wasn’t necessarily a “war god”, but was much more dynamic and expansive in its expression. For vast majority of human history, there were no “professional soldiers”

What are Synodic Cycles?

- A synodic cycle is a way to measure the pattern of a specific planet or other celestial object in relation to the Sun as viewed from Earth. A Mars synodic cycle starts and ends with the point of the Sun-Mars opposition (also called an acronychal rise)
- Mars-Sun Oppositions set the tone of the Masculine until the next Mars-Sun Opposition. The average opposition to opposition is between 25-26 months
- Mars is closest and brightest when in opposition
- The Sign that Mars is in creates what is called in Shamanic Astrology, **the “Overtone”**
- Mars spends the longest amount of time in the sign of the **“Overtone”** than any other sign during its synodic cycle

The Mars Synodic Cycle

- ❖ The Mars Synodic Cycle lasts on average, 26 months or 779 days
- ❖ Mars' Synodic Cycle begins when Mars is at opposition to the Sun, when it is closest and brightest to Earth (Mars Rises as the Sun Sets)
- ❖ Mars is in retrograde when Synodic Cycle begins
- ❖ There are six phases to a Mars Synodic Cycle: Birth/Emergence, Labors of Mars, Underworld, Rebirth, Maturity/Knowledge, Metamorphosis

Defining the masculine through the use of “overtone”

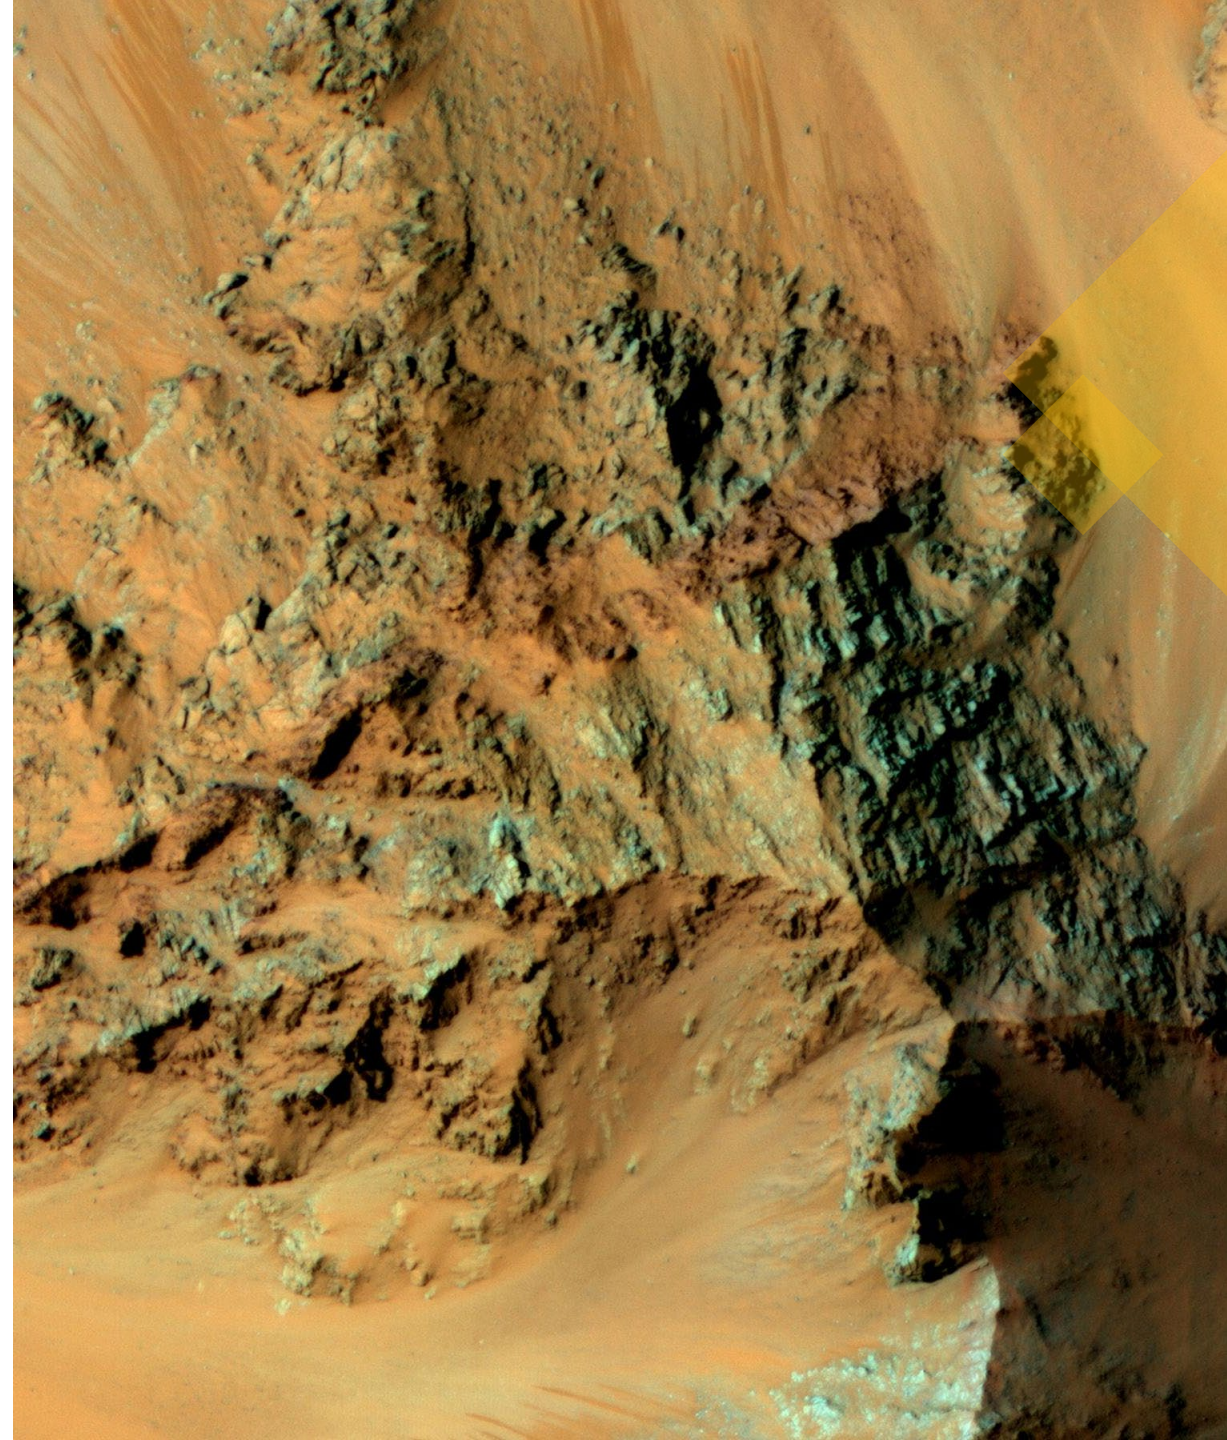

- **We are born with both a Mars sign AND a Mars Overtone**
- **This overtone assists us in clarifying what version of the masculine that is emerging within us (any gender)**
- **The overtone is akin to the matrix in which our Mars sign is being experienced (kind of like the environment)**
- **Essentially, the intent of having an overtone (and a Mars sign) is to live and explore the light and shadows of that combination of sign and overtone**

When does the Mars Return Cycle take place?

- A Mars Return cycle is the time when Mars comes back near the degree of a person's natal placement of Mars (not as exact as Venus). Closest approaches are at age 47 and 79
- A person has a Mars return every 15-17 years. The first takes place around age 2, then ages 15, 32, 47, 62/64, 79, 94
- The Mars Return phases are like an entire life cycle of a person, an evolution of subtleties in about 26 months

How we Experience Mars in our Lives

- Primarily in the form of relationships, including romantic and other personal relationships
- Through our Father or Father-image/archetype (your Moon sign also and relationship to Saturn)
- Every 15 or 17 years when we experience a “Mars Return” (Ages 2, 15, 32, 47, 62/64, 79, 94)
- Through other initiations triggered by outer planets “transiting” our natal Mars position

The Mars Return Cycle in 6 phases

For both men and women in all their gender expressions

- **PHASE ONE** — Birth, Emergence and Youth – Begins at Mars-Sun Opposition and ends when Mars return back to the degree of the Mars-Sun Opposition. Begins with the Sun/Mars Opposition, which can be seen as BIRTH and representing the period from birth to age 12. This phase lasts for 2-3 months containing 2-3 Moon conjunctions with Mars
- **PHASE TWO** — The Challenges/Labors/Tasks of Mars – Begins at end of Phase 1 and highlights the Mars/Moon conjunctions (8 to 11 in total) until Mars vanishes in the evening sky 15° from the Sun. Represents age group of 13-late 30's--Begins when Mars returns to the Birth degree (Mars/Sun opposition), and continues for 10-11 months, across the evening sky, until its entrance into the Underworld when it is 15 degrees from the Sun.
- **PHASE THREE** — The Underworld Journey of Mars. This phase can be analogous to the “sundance” or “okeepa” of Mars, a spiritual trial. It lasts nearly 4 months and Mars cannot be seen with the naked eye during this phase. This phase represents the masculine maturation in of a person’s late 30s to age 46. The phase’s duration lasts for 3-4 months until Mars emerges visibly in the morning sky.

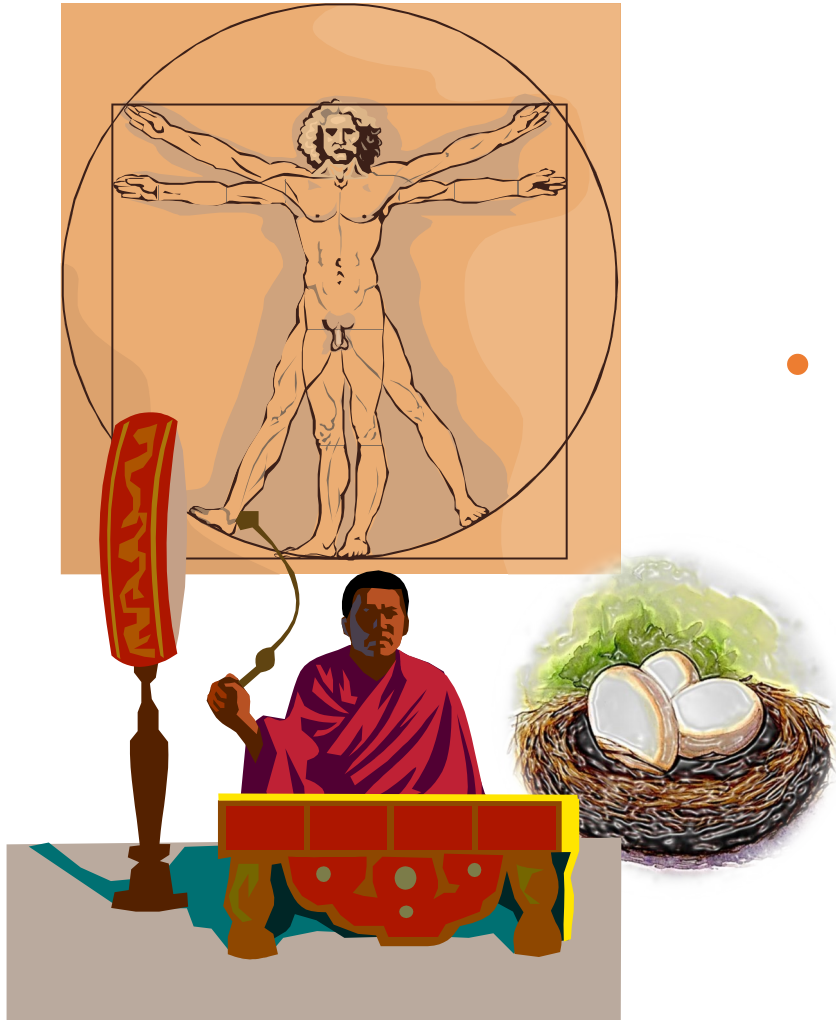

THE MARS RETURN CYCLE IN 6 PHASES

FOR BOTH MEN AND WOMEN IN ALL THEIR GENDER EXPRESSIONS

- **PHASE FOUR** — Rebirth; Growth, Maturity and Wisdom – Begins when Mars becomes visible until it reaches the sign of its opposition with the Sun. Represents the maturity level of age 46-66, which begins with Mars leaving the underworld as a very dim morning star and lasts until Mars enters back into the sign of its birth (sign of Phase 1).

- **PHASE FIVE** — Elder Maturity and Knowledge – Begins with the sign of past opposition with the Sun and ends when Mars enters the sign of its next opposition with the Sun. This phase is symbolic of the age period from 66 to 88.

- **PHASE ZERO** — Conception, Incubation, Gestation and Metamorphosis – ends at the Sun-Mars Opposition This phase can be thought of as beginning with CONCEPTION, and then the whole of Phase Zero is pre-natal, and in the womb. until the BIRTH at opposition, and the beginning of Phase One.

Mars is part of the Inner Sacred Marriage Process

- Along with Venus and the natal Descendant, Mars is a part of the Inner Sacred Marriage Process in the Shamanic Astrology Paradigm.
- For women, in general, Mars is representative of their inner masculine or animus. Mars facilitates an initial longing for a specific archetypal image for a woman. The longing can start with the father image in a woman's life.
- Later in life, there is an awareness of the projected "other" in the archetypal image of Mars and a recognition of relationship patterns, motivating a person to do their inner sacred marriage process.

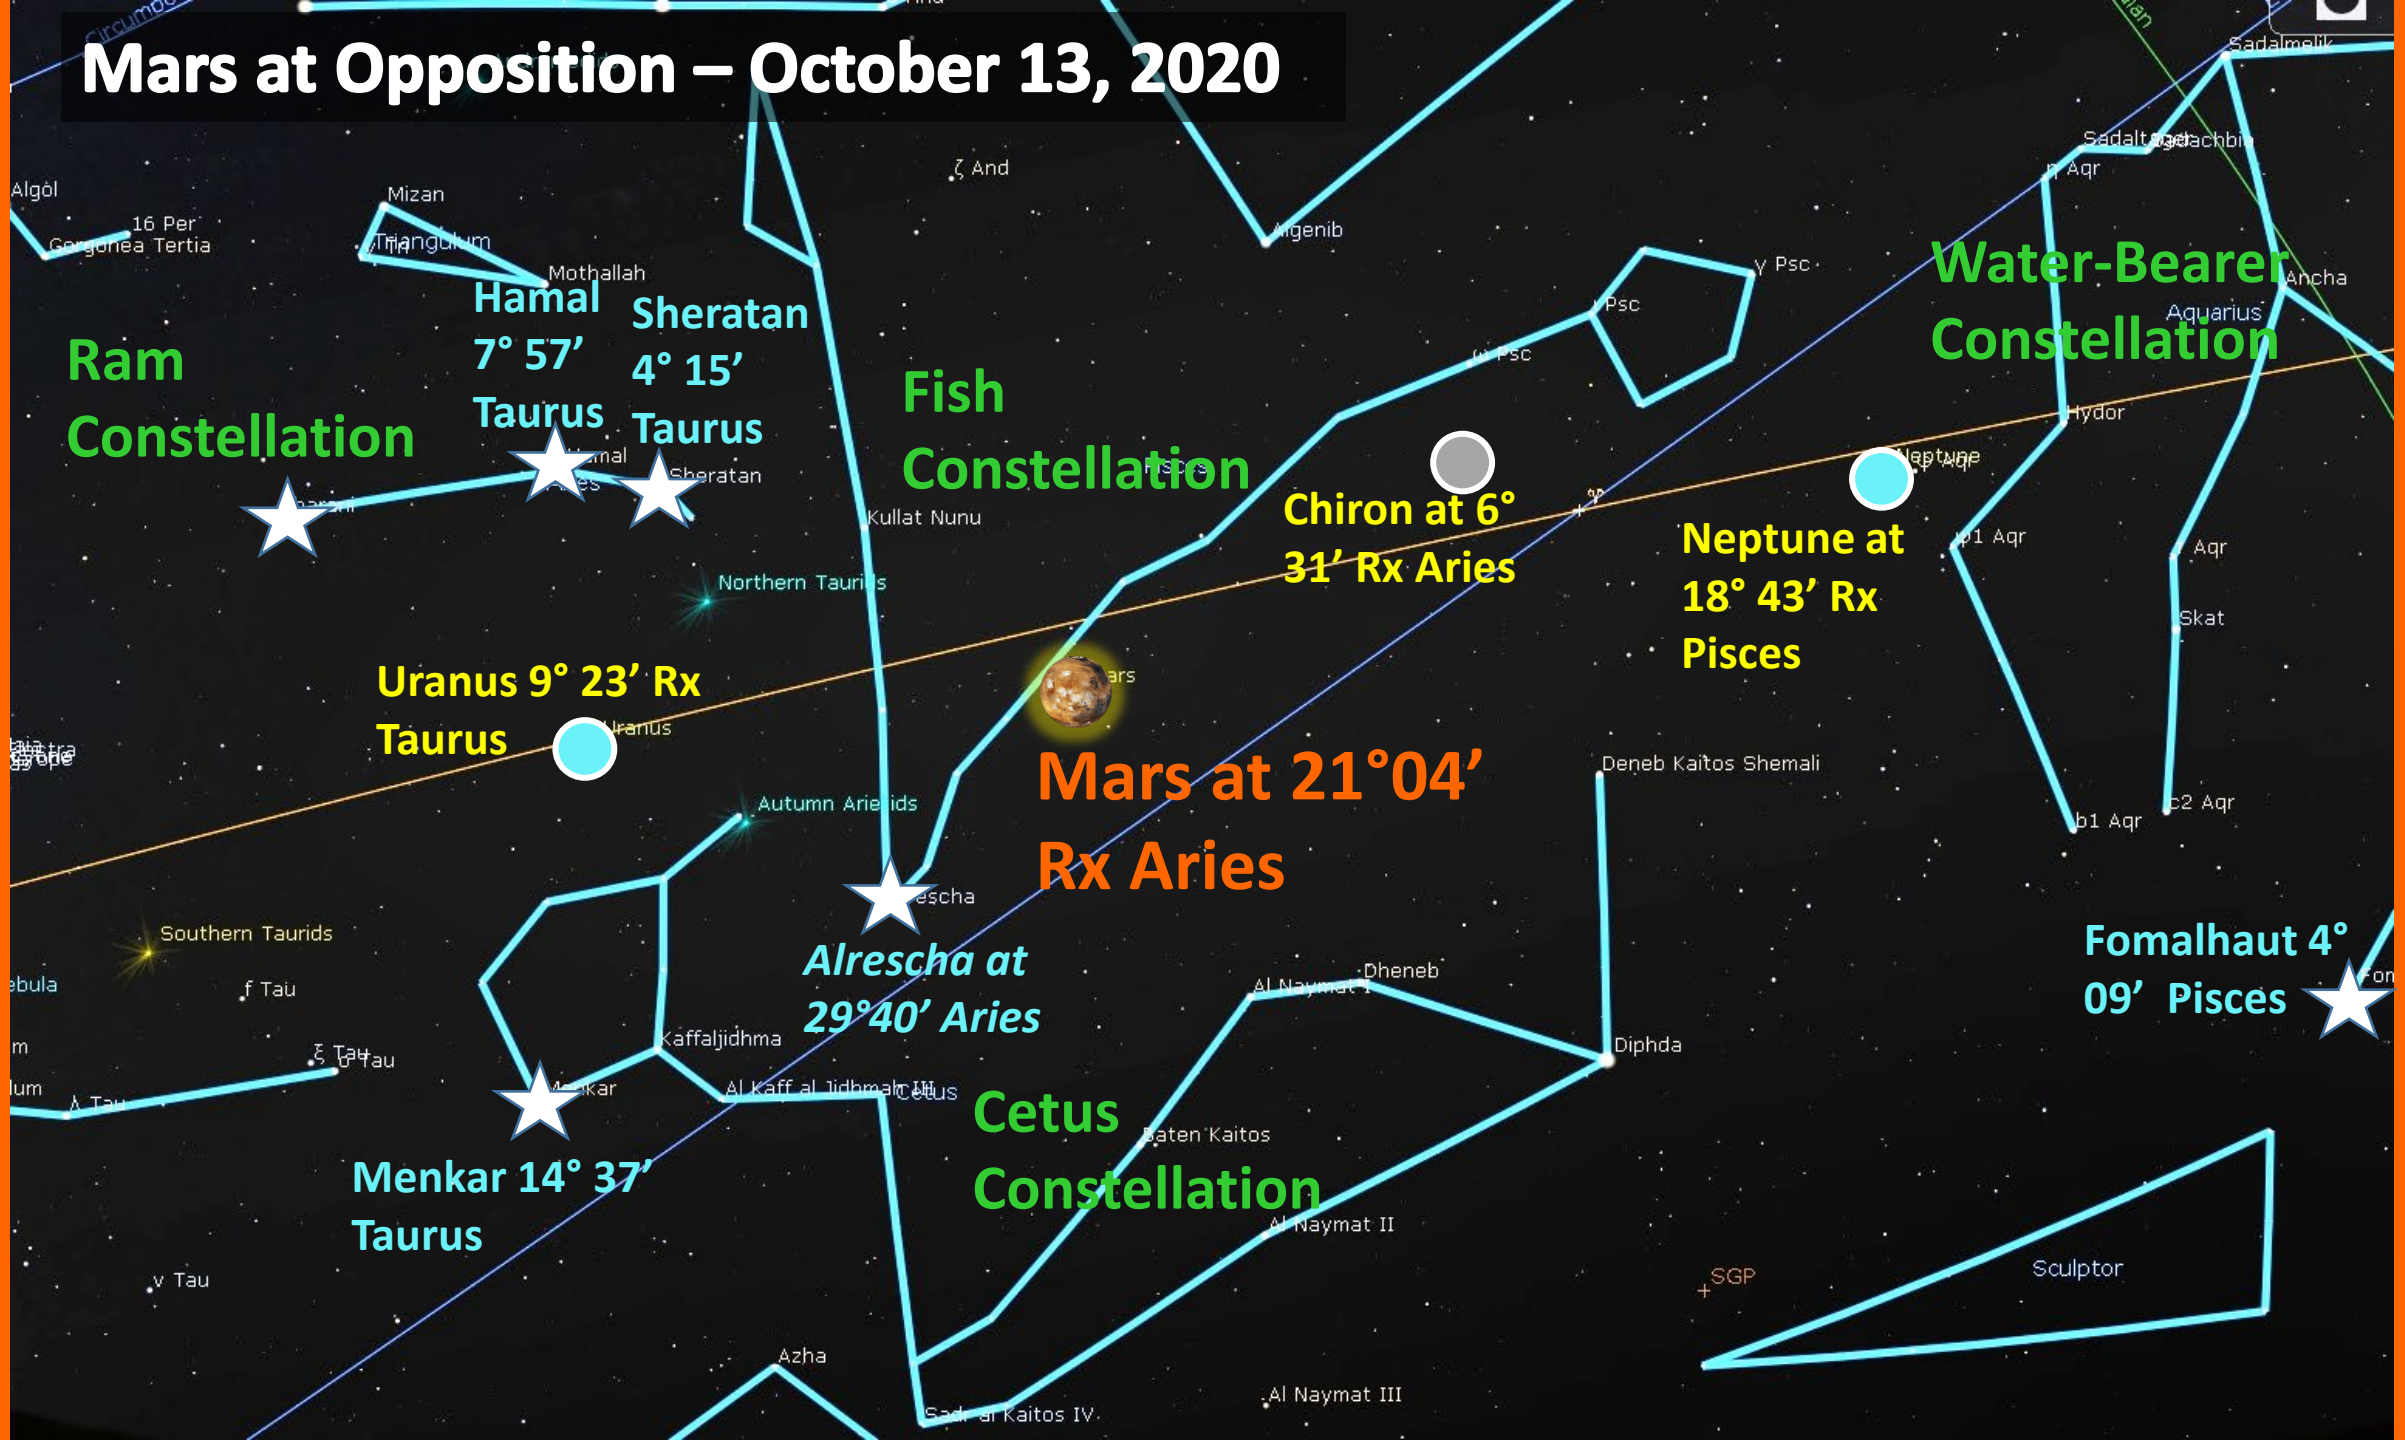

The Mars Return Cycle for women and other gender expressions

This cycle is very similar to the one experienced by men, but its focus is more about 2 factors:

- One's archetypal masculine within
- The outer projected masculine
- Men experience it as a more "personal" emergence of their own archetypal masculinity while women experience more of their relationship with the masculine both within and without

Each of the 6 phases of the Mars points to an important part of the maturation of the person's relationship with the masculine as shown in previous slides

Mars in Aries

the incubation of the masculine

- The sign most resonate with Mars is Aries
- Aries' essence is about mission-orientation, it is actional and a rugged-independence. It can be likened to the Guardian of the Cosmic Order.
- Aries is a fire-elemental form that is fast-moving, willful and strength of force and martial skills to overcome obstacles.
- Like all signs of the zodiac, Aries has been violated and corrupted over the last few thousand years in a direction for fighting wars and subscription to professional armies and especially for men.
- Aries is championed also, at the same time, as the ultimate and fiercest warrior and that this is a “good thing” for society. Even today, warriors are shown in entertainment mediums as the ultimate good vs evil in a black and white adversarial drama story that is perpetuated across the globe.

More on the Sign of Aries

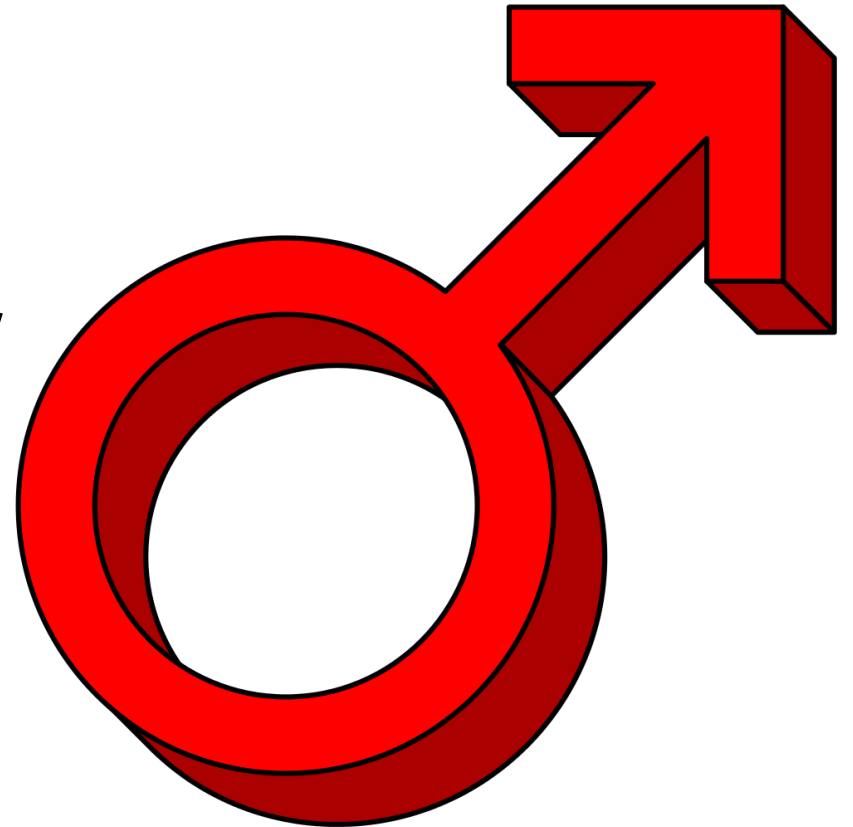

- Aries is the martial symbol of the 12 signs, the one most closely associated with the warrior archetype
- The intent of Mars in Aries is the freedom to choose to commit or be “all in” to a cause, purpose and/or mission
- Other ways to describe Aries is the rugged individualist, the velocity seeker, the alpha person, the ronin or lone wolf and the defender of the cosmic order
- Aries is a fiery, willful, actional, competitive and instinctual, spontaneous, decisive, aggressively playful and enthusiastic
- Aries is a sign that was violated at the rise of the Greco-Roman empires when the first true appearance of professional soldiers rose upon the world (as early as 3000 years ago).
- Aries is associated with the Roman/Grecian war God Mars/Ares, whose origins go back thousands of years and war was not the most primary quality of those ancient gods.
- This sign is intimately and deeply connected to the feminine and couldn't truly be defined without it

Extreme Masculinity

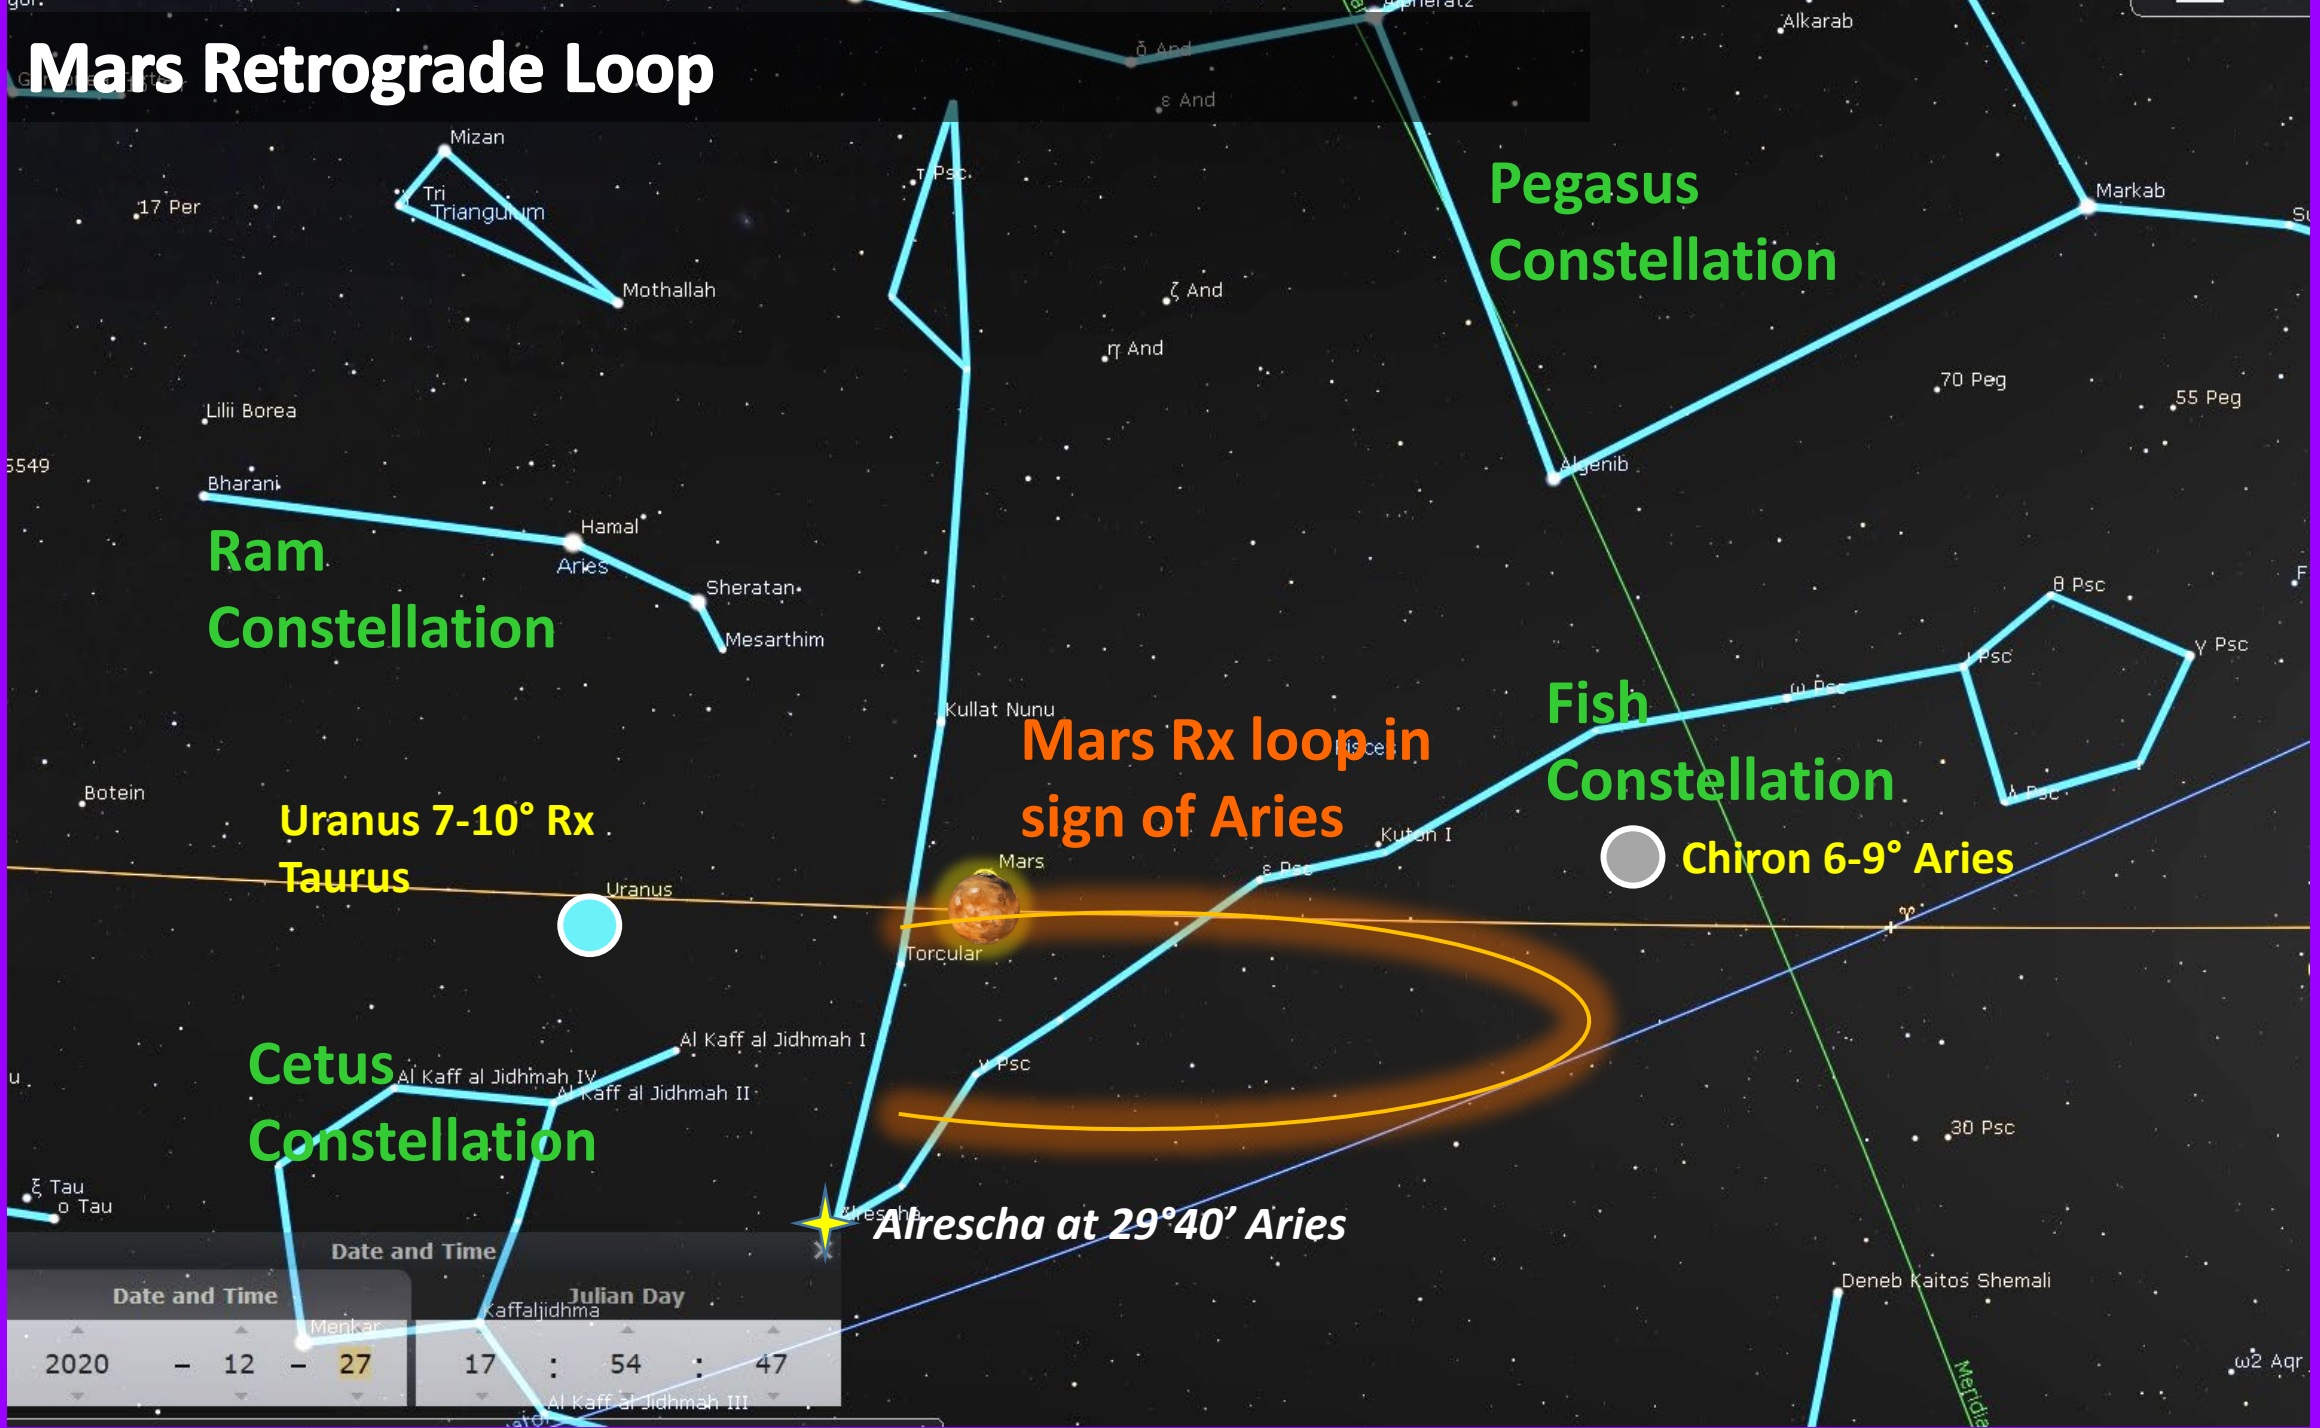

More on Mars in Aries and its fallout

Qualities of the shadow or toxicity of the dominant masculinity

- Not allowing emotions perceived as “feminine” to show (i.e. crying, empathy)
- Not appearing “weak” in front of others
- All about winning and dominance over others
- Self-Centered, egocentric and reactive
- Never admitting defeat leading to the denial of any loss even if it means denying reality
- Being the “stronger” is “better”

PHASE TWO

December 15, 2020 – August 23, 2021

- This is the longest phase of the Mars Synodic Cycle and is highlighted by 10-11 months of time in the evening sky where it meets the Moon on a monthly basis. These monthly conjunctions with the Moon are known in Shamanic Astrology as Labors / Challenges / Tasks.
- The challenges represent specific areas of growth for the masculine varying greatly on the sign and constellation (including nearby stars) that Mars is in. Phase 2 ends when Mars disappears in the glare of the Sun (15 degrees from the Sun).

Mars Synodic Cycle Phase 2

PHASE TWO--Age 13-late 30's--Begins when Mars returns to the Birth degree (Mars/Sun opposition), and continues for 10-11 months, across the evening sky, until its entrance into the Underworld when it is 15 degrees from the Sun.

This phase includes 10 or 11 Moon conjunctions with Mars, and is the longest phase. It slowly increases in brightness. The research describes this phase as the "Labors" of Mars, or the challenges that a person goes through from puberty through our most active and vital adulthood.

This time frame corresponds and begins with the remarkable cycles around puberty (age 13-16), followed by the Nodal return at 18-19, followed by the accelerated Jupiter/Venus returns at 23-24, then the Nodal Reversal at 27-28, then the Saturn Return at 29, followed by the Venus/Mars returns at 32, followed by the Jupiter return of 35-36, and then culminating with the Nodal return and Saturn Square around 37.

The Moon/Mars conjunctions by sign and constellation would more define the nature of the initiatory process. So Phase Two would correspond to Age 13-our late 30's.

Mars through the Signs in 2020-2021:

- Aries June 27, 2020 - January 6, 2021

- Taurus: January 6 to March 3

- Gemini: March 3 to April 23

- Cancer: April 23 to June 11

- Leo: June 11 to July 29

Mars enters Underworld August 23rd (Mars hidden in the glare of the Sun) – Phase 3

- Virgo: July 29 to September 14

- Libra: September 14 to October 30

Mars exits Underworld November 22nd (Mars appears in early morning sky before sunrise) – Phase 4

- Scorpio: October 30 to December 13

- Sagittarius: December 13th

MARS, THE NODES AND THE US CHART

By Daniel Giamario

The Mars transit, together with the transits of the North and South Node, compel us, once again, to look in at the horoscope of the United States. With Mars moving through Gemini now, as well as the North Node being in Gemini, this week definitely gets our attention.

The US chart, as rectified by Dane Rudhyar, shows the US Ascendant at 13Sagittarius10 and Descendant at 13Gemini10. Additionally, the US has Mars at 21Gemini22, as well as Uranus at 8Gemini55, all in the 7th house.

Transiting Mars in Gemini will conjunct the US Descendant on Friday March 26th. Mars will exactly conjunct the transiting North Node the very same day: March 26! Looking ahead, Mars conjuncts the US Mars in Gemini on April 8th.

Meanwhile, the axis of the transiting Lunar Nodes will precisely align with the United States DSC/ASC axis on Monday March 26 at 13Gemini22/13Sagittarius22. The Shamanic Astrology Paradigm™ uses a 6-month window for these initiatory time-frames, 3 months on either side. So, the Nodal alignment with the US DSC/ASC axis runs from December 26, 2020-June 26,2021.

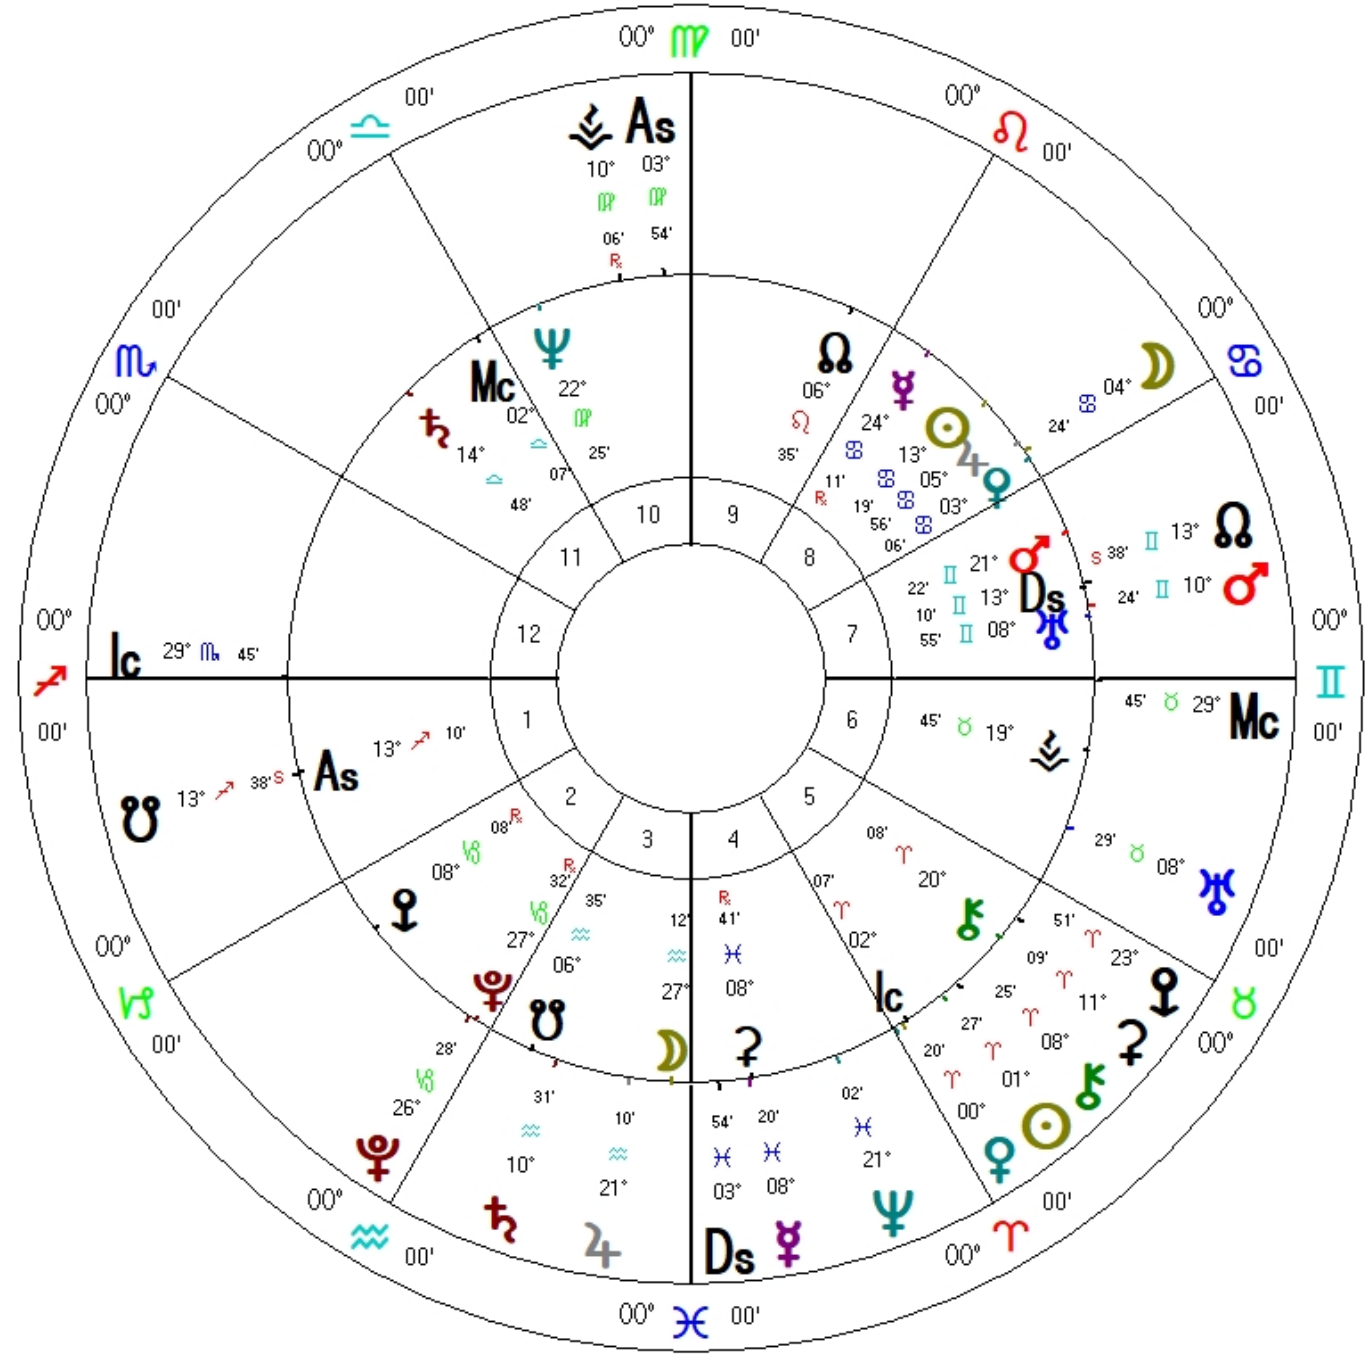

The previous nodal alignment on the US DSC/ASC axis was June 6, 2002 through December 6, 2002 with the bulls-eye on September 6th. Strangely, just before this, Mars was also in Gemini. Among the things that occurred then were: an 18-year stock market low, the beginnings of the attacks on Iraq, with hundreds of thousands protesting the US led actions, around the world, there were major Israeli/Palestinian escalations, and the one-year anniversary of the 9/11/2001 event.

In recent posts, I have speculated on the Mars in Gemini transit, within the Aries overtone. And also, we had checked in on the US chart. With regards to the Nodal alignments, this is most often quite positive and future oriented, and at its best, signifies collaboration with friends, partners, and allies; but only if the country is in alignment with its original intent. Much the same interpretation could be made for Mars conjunct the US Descendant.

This Mars transit and the Lunar Nodes transit are highly significant, and clearly, we are in their initiatory windows. And remember, without even taking into considering the US chart, Mars conjuncting the North node on March 26th, is quite significant, in its own right. This relates to what Mars, in archetypal Aries can, in fact, learn from new and old insights coming from emerging universal intent from the Galactic Edge, regarding the Gemini mystery school. If all this wasn't enough, Mars will enter a rare out-of-bounds time frame on March 22nd! Yet another wild card.

Still to come July 29th, the North Node is with the US Uranus. Relative to the US chart, the wild card has always been its Mars in Gemini, quite often at odds with the Aquarius Moon and Sagittarius Rising idealistic and revolutionary intent. This next week should offer a lot of clues as to what is possible. And another thing to watch closely is the beginning of an 8-month time frame of transiting Jupiter on the US Moon that begins April 16th

End of Underworld Phase

- **Mars' Underworld Journey begins officially on August 23rd**
- Mars enters into a 15 degree orb with the Sun and drops below the horizon into the underworld. The edge of visibility is when Mars is 15 degrees from the Sun.
- **This is where Mars exits the world stage and undergoes a variety of initiatory experiences appropriate to the underworld, including chaos, surrender, and conditions beyond one's control.**
- Spiritually, this phase can be perceived as a kind of *sun dance (Lakota)* or *okeepa (Mandan)* a spiritual trial that is ultimately undergone in service to the people and the greater community.
- **At this time, Mars is totally invisible and located at the other side of the sun.**

Mars Synodic Cycle Phase 3

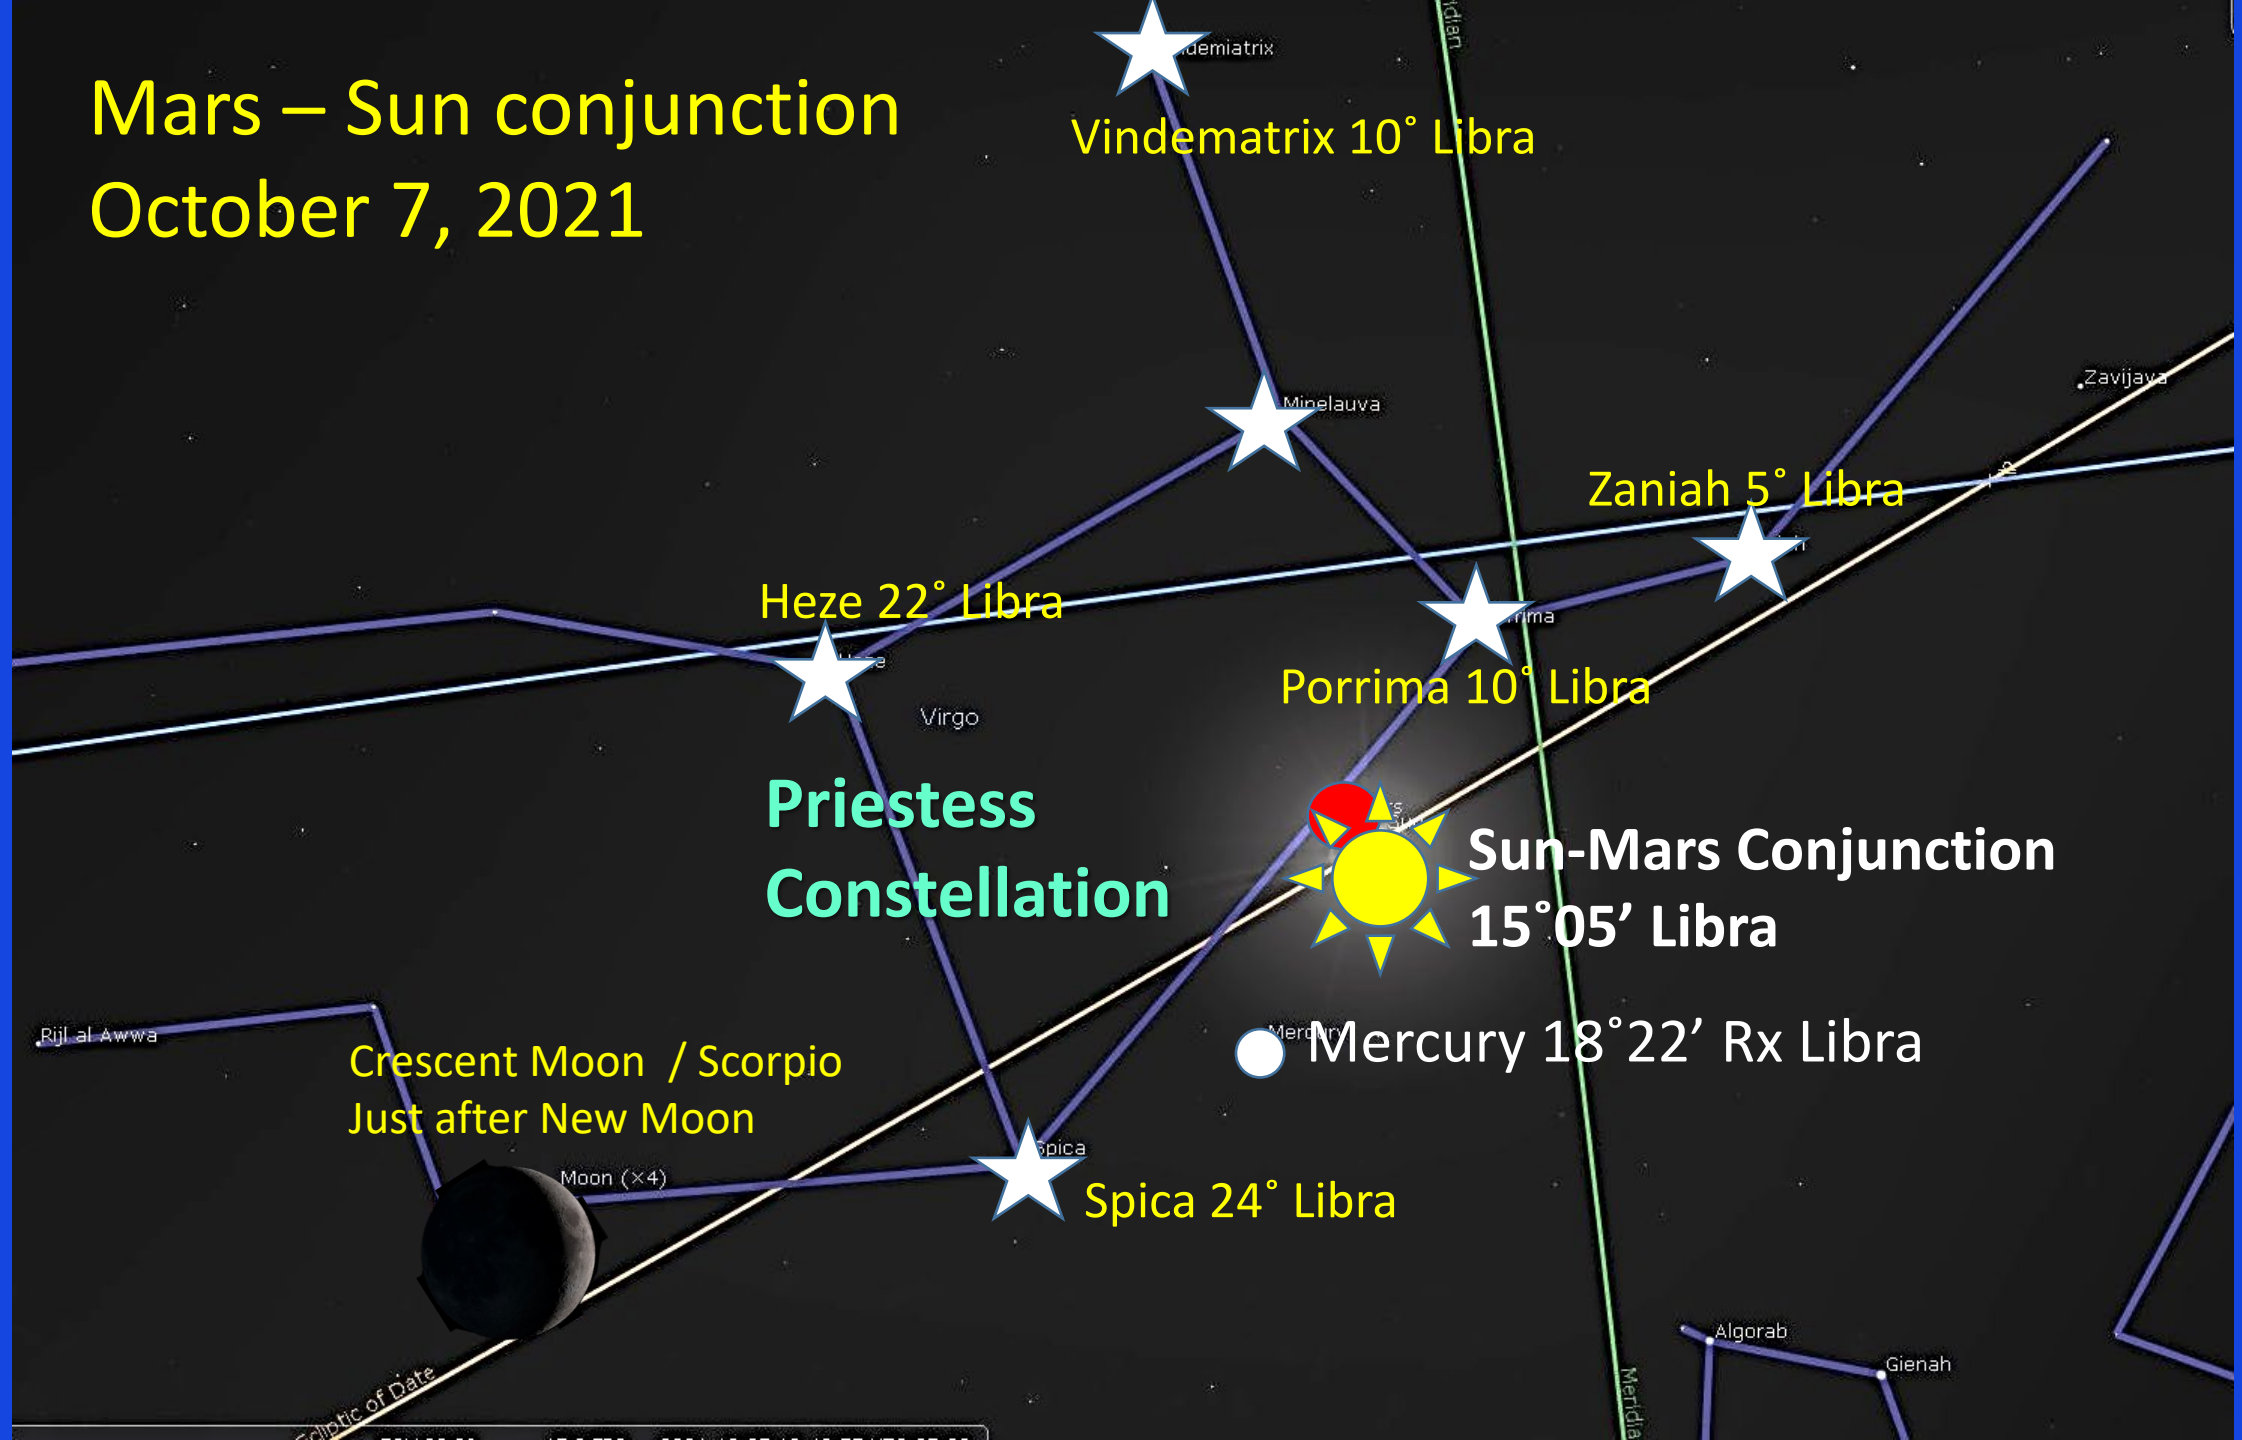

PHASE THREE--Late 30's-46--Begins with Mars entering the underworld. It lasts for 3-4 months, ending when Mars has separated from the Sun by 15 degrees and rises as a very dim morning star.

We have compared this phase to shamanic death and rebirth, such as a Sun Dance or Okeepa ceremony. It's a time of surrender, and either chosen or forced powerlessness for the purpose of developing more humility and maturity.

This then corresponds to the cycles of the "mid-life crisis", including the Pluto Square (in current generations), the Neptune square and the Uranus opposition.

Therefore we are looking roughly at Age 37-38 up until possibly the Saturn Opposition at around 44 or maybe lasting until the Nodal Reversal at 46.

What is the Underworld?

In ancient Greece, the underworld was the place of the hidden or invisible.

For many eons, the Underworld (globally) was seen as the literal place below the Earth or Water or in the hidden areas and mysteries of the Wilderness or Mountains.

Prior to the rise of the patriarchy, the Underworld was seen as “feminine” in its energy. It was a place of death and rebirth, renewal, resurrection, reconstitution of one’s self after surrendering.

According to James Hillman and the Jungian psychology thought, the *Underworld IS Psyche*

Mars Synodic Cycle Phase 4

PHASE FOUR--Age 46-66--Begins with Mars leaving the underworld as a very dim morning star, and lasts until Mars enters back into the sign of its BIRTH.

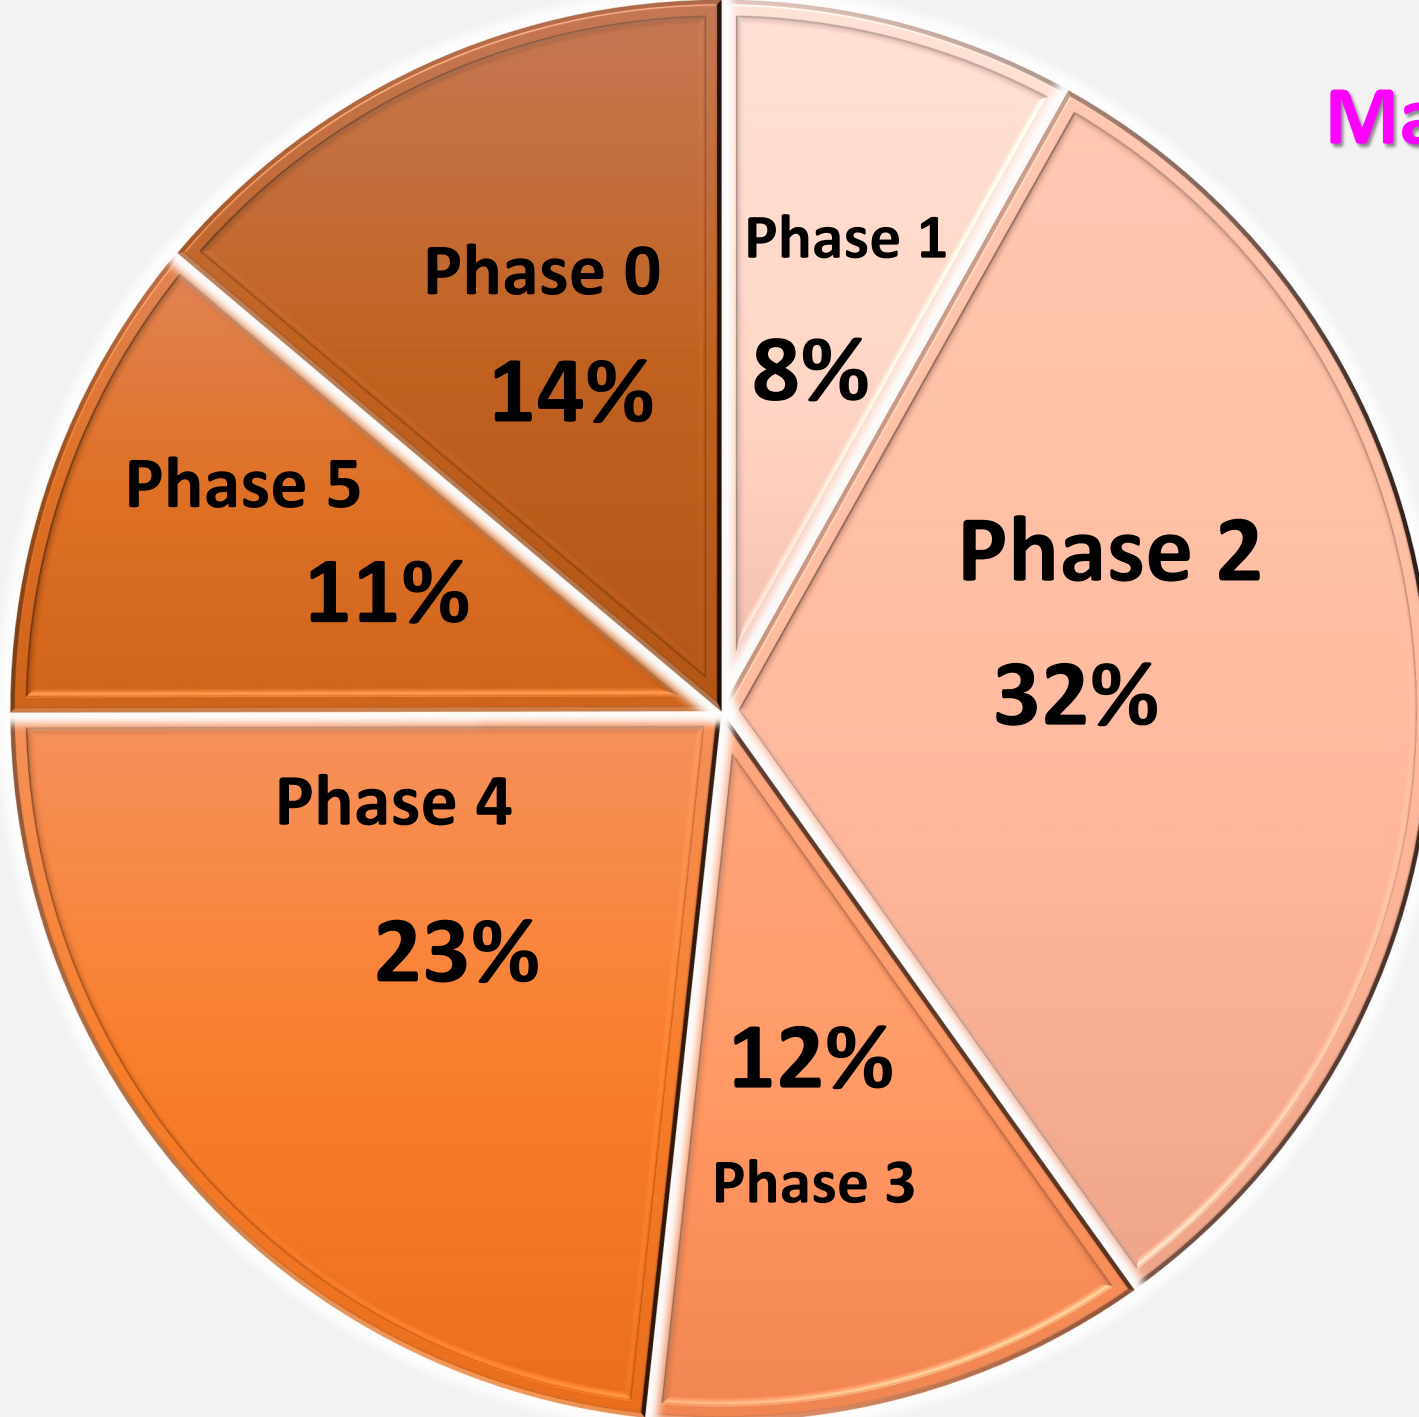

This phase can last from 4-5 months and is in its morning star apparition. There can be 3-4 Moon/Mars conjunctions, and Mars can ingress into 2-3 new signs. We have termed this phase as the Rebirth and Growth of Wisdom phase, just following the Underworld initiation, and now hopefully more mature, less rash or with a need to prove anything.

This Phase begins possibly at the Saturn Opposition at 44, or even more likely at the Nodal Reversal at 46. Following that approach this phase would include the so-called triple jackpot around 47-48. Then follows the really important Chiron return/Saturn Square time at 49-51, followed by the Venus return/Nodal return time around age 56. Phase 4 possibly ends with the 2nd Saturn Return/5th Jupiter return time of age 59-60. But an even greater possibility is that Phase 4 ends with the Saturn square/nodal reversal time of age 65-66.

I am tending towards the 65-66 time-frame because then the age 64 Double Venus/Mars return, as well as the Uranus square at around 62, would be part an empowered this part of Phase 4, Growth of Wisdom.

And my experience has been that in our current time age 65-66 seems to indicate a greater life transition point than the second Saturn Return at 59-60. In any case, this Phase ends with the movement of Mars back into its Birth overtone sign.
