## The Mother Force: A Teaching and Opening

### Bio

While being a very successful corporate executive Kadea experienced a life changing near-death experience in 1975. This led her to immersing herself in the study and practice of spiritual alchemy and ancient wisdom teachings. She left the corporate world in 1987 to be “true to herself” and since then has been helping people worldwide offering workshops, courses and intuitive Soul Blueprint Readings and Life Path consulting, as well as vibrational, energy and sound healing. Kadea can literally “see” the core imprints and blocks you must heal to create positive change in your life and then facilitate their clearing.

### Presentation Summary

I will share with you insights about her As Above Transcendent and Cosmic/Universal aspects and well as her So Below Individual aspects of manifestation. I will then lead you through a powerful process of opening to Her Power, Force and Truth to accomplish the spiritual aim and great task and conversion of living in the light of your true Divine Consciousness on earth as a more evolved human being. She is the Supreme Grace always available to us if we are prepared to receive It.

### Full Presentation

I would like to take this opportunity to share with you information that is invaluable and imperative to know if you want to benefit from and receive help from the Supreme One's Consciousness Force and Power of Creation, know by many names such as The Divine Mother, Divine Shakti, The Great Mother, The Womb of Creation, The Supramental Truth-Consciousness, The One Thing, The Creatrix, The Power of Becoming, The Manifested One, Prime Matter, MaMa just to name a few.

She is the manifesting Becoming aspect of the Supreme One that is the Two in One, The Yin Yang, The Being and Becoming.

Acknowledging Her and opening to Her help is the surest way of receiving the benefits of Divine Grace and Wisdom and Divine Intervention needed to liberate us from the grip of our limitations, ignorance and suffering. With Her help and guidance we conquer and transform our lower nature and birth the true Divine Soul Self within (I call this the God seedling). In doing so we live our true soul purpose. No longer seeking and striving for fulfillment but living our true divine design. All life and souls are Her children and she wants only for us to live in the eternal harmony and bliss of our individualized unique Truth.

Please join me today as I bring forth a teaching to inform you about the Divine Mother and lead you through a powerful process of opening to Her Power/Force to accomplish the spiritual aim and great task of living in the light of our true Divine Consciousness on earth as more evolved human beings.
