

March 2002 Celestial Timings

By Carolyn Brent

The fairest thing we can experience is the mysterious.
It is the fundamental emotion which stands at the cradle of true science.

He who knows it not and can no longer wonder,
no longer feel amazement is as good as dead. ~ Albert Einstein

Magic Happens!

We live in a world filled with Magic and Mystery that continually enhances our imagination when we are open to and conscious of all the possibilities. Shamanic Astrology recognizes the infinite number of valid evolutionary paths through the various combinations of mystery schools. The basis of this system stems from the "As Above, So Below" mysteries described in the Emerald Tablets of Thoth and Hermes. We are the co-creators of our reality and we have the ability to co-create consciously when we remember to work in concert with all of life Above and Below. Shamanic Astrology provides a powerful tool for consciously remembering our connection to the mysteries of Earth and Sky.

The Celestial Timings are one way to tap into these mysteries. Another is to join Daniel Giamario and myself at [Faywood Hotsprings](#), New Mexico for the Beltane Cross-Quarter Gathering May 2-5, 2002. This sacred site features a geomantically alive Standing Stone circle built at the center point of the [Turning of the Ages](#). It is quite a wonder to witness the sky mysteries from this Standing Stone Circle underneath velvety dark New Mexico skies. This year we have the added wonder of all 5 visible planets showing up in the evening sky and a last quarter Moon phase keeping the starlit sky dark until around midnight. This is a rare opportunity to visually witness Mercury, Venus, Mars, Jupiter and Saturn at a powerful sacred site experientially connecting Earth and Sky. With Daniel's masterful ability to bring the sky mysteries to life this promises to be a deepening initiatory experience for all those who feel called to join with us. [See Beltane Faywood Camp on website](#)

Four of the five Planets (Mercury is still in the morning sky) are visible this month and worth casting your gaze skyward as the sky darkens after Sunset.

Week of Feb 27 – Mar 4 This week features a [Full Moon](#) symbolizing the fulfillment, or fruition, of the seeds planted at the New Moon or some earlier cycle. Once each year the Moon is Full in Virgo. The Moon then begins to wane this week representing the dissemination or integration of these gifts.

Mar 1, Friday. Jupiter (5 Cancer) is stationing direct today. When planets shift direction there is often a pronounced feeling of disorientation and chaos, a reorientation process. We are being called upon to reorient our perspective in relationship to the expansive quest for responsible self nurturing that enhances our ability to responsibly nurture others. For several months that quest has had an inner focus and direction. Over the next several days and weeks the focus is shifting toward an outward manifestation of our inner experience.

Mar 2, Saturday. Yesterday Mars slipped into Taurus activating the sacred masculine quest in the often illusive and mysterious realm of sacred pleasure and beauty. Mars is now focused on the aspect of the quest designed to experience art and intimacy as its active creative expression. Imagine if we lived in a world that honored beauty as our highest sacred expression? Imagine what it would look like, feel like, sound like, and if you have a really good imagination you might even imagine what it might taste like and smell like as well. Imagining and luxuriating in the images of sacred beauty and sacred pleasure is the first step to creating this reality and this action is supported by the journey of Mars through this domain until April 13.

The Moon is moving into Scorpio today and opposes Mars in Taurus fully activating the Taurus/Scorpio tantric axis. Tantra is not limited to sexual expression, but rather is the full sensual

expression of life force. This tantric axis now activated by Mars and the Moon is sending and receiving this vital energy for the purpose of manifesting our true passion.

Mar 3, Sunday. Checking in with Chiron (7 Capricorn) and Jupiter (almost 6 Cancer) we find they are moving closer to their third exact opposition on the Cancer/Capricorn axis occurring on April 18 around (9 Cancer/Capricorn). From now until then the Shamanic Healer, Chiron is acting to collectively heal the societal wounds of the current competitive community model. Jupiter, meanwhile, is expanding this Shamanic Healing process into new territory. Imaging and acting from the paradigm of cooperation sets the example. A peaceful world occurs when we have peaceful individuals operating in ways that responsibly support not only the individual but also the good of the whole.

Mar 4, Monday. Saturn is returning to its last exact zodiacal alignment with the fixed star Aldebaran, the eye of the Bull, later this month. "...[Aldebaran](#) is one of the four royal stars or "Guardians of Heaven", the sentinels watching over other stars. The other royal stars include Antares, Regulus, and Fomalhaut. These royal stars have been characterized as Horses, reflected both in the famed Four Horsemen of Apocalypse (*Revelations* 6) and Chariot Horses in the Book of Zechariah - (*Morse*) Aldebaran links with the red horse of the Apocalypse and is considered the "Watcher of the East" associated with archangel Michael - Military Commander of the Heavenly Host.

<http://www.winshop.com.au/annew/alphabet1.htm>

Aldebaran is also a portal to the mysteries of the mind and when balanced with the fixed star [Antares](#), who is a portal to the mysteries of the heart, we have a powerful stargate axis currently being energized by Saturn's presence. The supportive energies of Aldebaran are accessed when we approach its mysteries with integrity, honor and purity of intent. According to the information in *Starlight Elixirs and Cosmic Vibrational Healing* by Michael Smulkis and Fred Rubinfeld <http://hilarion.com/stars.html> Aldebaran is linked with the original genetic coding that allowed for the experience of free will here on planet Earth and ..."the beings from Aldebaran hope that humanity may someday choose to co-create a civilization with them..."

Vesta is returning to this area of the sky and will link up with Saturn on March 18. These clues let us know this timing is about consciously co-creating our reality in balanced harmony with the masculine and feminine principles, including the balance of heart and mind, and physical and spiritual awareness. (See March 18)

Week of Mar 5-10 This week marks the [last quarter phase of the Moon](#) beginning the integration aspect of the current Moon cycle. It is also time to begin looking at what seeds to plant in the next cycle marked by the Pisces New Moon on March 13.

Mar 5, Tuesday. Today's [Last Quarter Moon](#) is occurring at 15 Sagittarius, the degree where Mars (the sacred masculine now questing for truth and freedom) stationed direct last July, within about 5 degrees of the fixed royal star [Antares](#), "watcher of the west" and linked with Archangel Uriel. This is a further illumination of the Aldebaran/Antares Star gate axis mentioned yesterday. Pluto is nearby at 17 Sagittarius intensifying the inner shamanic journey this phase of the Moon signifies centering around the quest for knowing and experiencing the truth of who we are. As the Children of Oz have suggested it is time to pretend our truth, to pretend our enlightenment, to pretend enlightenment is our true experience, and with the intention of this timing the attention to this truth empowers our reality. This URL has the messages from the psychic children if you missed getting that info last month.

Mar 6, Wednesday. The Moon enters Capricorn crossing the Winter Solstice marker. This point is currently aligned between the constellation of the Archer and the Scorpion at the point where the ecliptic (the path the planets follow) and the Milky Way intersect near Galactic Center. This is one of many clues that indicate we are at a [Turning of the Ages](#) encompassing 26,000 years. Noting where the Moon last night and tonight helps us to visually tune into this area of the sky where the seeding energies from the Great Above for the New Cycle are pouring in from the great Galactic Gateway.

Mar 7, Thursday. Venus moves into Aries today crossing the Spring Equinox marker in the sky. At this time last year Venus stationed Retrograde in

Aries and in April of 2001 rose as a Morning Star beginning a new 584 day Venus cycle. Venus has recently emerged as an evening star still within the cycle that began last April. The sacred feminine principle expressing through the Aries archetype shows up as the independent Amazon warrior wild woman willing to fight for any cause she truly believes is just. She is spirited, adventurous, spontaneous, and she treasures her sovereignty. On the articles page describing the [Venus in Aries Cycle](#) there is story that explains the importance of women having the power to choose their own path for the purpose of staying connected to their true authentic selves. When this understanding is honored and upheld, true authentic beauty is the result.

Mar 8, Friday. Sun (17Pisces35) squares Pluto (17Sagittarius35). Last December the Sun conjuncted Pluto, and now we have reached the annual Sun/Pluto square that occurs just before Pluto stations retrograde on March 20. This is a highly transformative aspect intending to illuminate the shadow places that prevent us from fully living our true essence. Initially this may feel disempowering, calling our attention to one or more aspects that we have disowned or denied, usually prompted by underlying fears. It is important to refrain from judging ourselves and instead embrace these forgotten or denied aspects, feel them, and express them somehow. Some possibilities for this are through emotional release work or finding an artistic expression through art, music, dance, journaling, or a dramatic enactment. This allows these aspects an opportunity to transform in some tangible way. For those who have fully integrated all their aspects, this is a powerfully charged time for manifesting personal gifts and talents that empower us. Remember, Pluto initiations usually bring gifts when we open to receive them, because after all Pluto is also the God of Wealth.

Mar 9, Saturday. Mercury and Uranus meet at 26 Aquarius, as do Neptune and the asteroid Pallas Athene at 10 Aquarius. The transformational messenger (Mercury) is meeting with the change artist (Uranus) bringing us unexpected messages and experiences of magical synchronicity. Letting go and rolling with the flow allows the magic a chance to manifest more clearly. Pallas Athene was the Goddess of Protection, Victory, and Wisdom. Neptune connects us to our intuition and the wisdom of Pallas Athene assists us in utilizing

our intuitive knowing for victorious life experiences. The challenge is learning how to consciously attune to that inner knowing and then wisely act upon it. (Demetra George *Asteroid Goddesses* <http://isbn.nu/0935127151/price>)

Mar 10, Sunday. Waning Moon entered Aquarius yesterday and is joining with Neptune and Pallas Athene today. This triune council illuminates and taps deeply into the original visions and dreams of our soul's intent before the long ago splitting of power and importance between the masculine and feminine principles. In the Aquarian domain the call is toward the dispensation that says "*all human beings should have the freedom to take responsibility for their own evolutionary path.*" (From [The Shamanic Astrology Handbook](#)) In essence we are again remembering the value and importance of all forms of humanity including the differences between the masculine and feminine principles.

Mar 11, Monday. Mercury and the waning Moon slip into Pisces today activating the Pisces New Moon window exact on March 13. Mercury remains in Pisces until March 30. There may be a noticeable shift in communication as Mercury moves from the left brained, analytical, cosmic perspective of Aquarius into the right brained, intuitive, idealistic style of Pisces. It helps to notice how your thinking affects your feelings and how your feelings affect your thinking. When harmoniously synched in this domain, creative expression and communication are maximized.

Mar 12, Tuesday. The sacred feminine Venus (6 Aries) is making its last square to generously expansive Jupiter (6 Cancer) before Venus and Jupiter meet in the evening sky in early June. This is a great reminder to the feminine principle seeking her sovereign authentic expression to responsibly nurture herself in the process. This is not gender oriented but speaks to the feminine principle within everyone. Social engagements that are nurturing and fun are especially supportive at this time.

Week of Mar 13 – Mar 20

This Pisces [New Moon](#) seed point is about allowing our visions and dreams the opportunity to manifest by consciously seeding these dreams in this window. Taking time to clearly state an intent, even if the intent is simply to explore what

in the world our dreams and visions are, helps to draw the manifestation of that intent closer to us.

Mar 13, Wednesday. In the Pisces New Moon seeding window (23 Pisces) we are encouraged to dream our biggest dreams seeding them into our reality through imaging and or “pretending” that they already exist. Energy follows our thoughts and our words. Imagine it, decree it so, and know it is already on its way to manifesting. (See Mar 5)

Mar 14, Thursday. Moon moves into Aries today catching up to Venus tomorrow. This will mark the first Moon/Venus conjunction since Venus, (a.k.a. Inanna Queen of Heaven), rose as an evening star last month. At this time Venus moves through the first gate out of the underworld and reclaims her first vestment, her life force symbolized by the return of her royal robe. Images for the Aries Archetype include the rugged individualist, the adventurer who is exploring new territory and the sacred warrior who fights to protect family, community and the cosmic order of life, willingly taking a courageous stand for truth, justice and balance. [Venus in Aries Article](#)

Mar 15, Friday. Action oriented Mars (10 Taurus) squares imaginative dreaming oriented Neptune (10 Aquarius) creating the possibility of decisive actions that bring the dreams into reality, if there is a clear sense of the dreams that are seeking manifestation. Otherwise this might be an indecisive time where changing beliefs conflict and the resulting confusion creates a desire to escape into another reality. Taking time to tune in, meditate, and get clear on the inner visions and dreams helps to direct our action towards fulfilling those visions and dreams.

Mar 16, Saturday. Moon moves into Taurus reminding us of the art of savoring and enjoying each moment and the importance of receiving all the abundant gifts life has to offer, by relaxing, slowing down, breathing, and fully absorbing and appreciating the beauty of life.

Mar 17, Sunday. A.K.A. St. Patrick’s Day. Today is the eighth [Moon/Mars](#) conjunction (11 Taurus) visible in the western evening sky since Mars went direct last July. Mars is journeying through the Taurus domain questing for the truth around sacred pleasure and intimacy as not only an art

form but also an important aspect of the evolutionary path to wholeness. Tonight, the crescent Moon is very close to Mars providing us with an opportunity to visually tune into what this council meeting has to offer. Connecting visually with the visible planets has a way of speaking to us beyond words, inspiring our hearts and our connection to the Great Mystery.

Mar 18, Monday. Saturn conjuncts Vesta late tonight or early tomorrow depending on your time zone and both are aligned with Aldebaran at (9Gemini25). (See March 4) Vesta is the keeper of the sacred flame connecting soul and spirit through remembering our wholeness. The original mysteries of the Vestal Virgins included sacred sexuality, because the original meaning of the word Virgin simply meant unmarried. Then long ago there was a splitting of sexuality and spirituality as demonstrated in the imagery of the Madonna/Whore split. One place this comes from is in the story of Eve and Lilith. Eve was actually Adam’s second wife. Lilith was Adams first wife, and she didn’t like Adam bossing her around so having wings she flew out of the garden of Eden. When Adam complained God sent three angels to bring Lilith back, but she refused. So God created Eve to serve Adam, not to be his equal but rather to be his helpmate. Lilith thereafter was described as an evil sorceress archetype, who stole or killed innocent babies, mated with unsuspecting men and bore monstrous children. This was a warning about what happened to women who insisted upon their sovereignty. Of course Eve didn’t fair much better but that’s another story.

This triune council of Vesta, Saturn and Aldebaran is a timing for deepening our choices around the mysteries of sacred sexuality and equality between the physical and spiritual, masculine and feminine, yin and yang principles. We can now choose to structure our reality in ways that once again promotes and sustains wholeness of being. This cycle began last summer and continues through March and into April of this year. (Demetra George *Asteroid Goddesses* <http://isbn.nu/0935127151/price>)

Mar 19, Tuesday. The Heyokah, Coyote, Contrary, Shapeshifter, Magician is showing up as the Moon moves into Gemini. This is the eternal youth, free from the rules, reminding us not to take ourselves so seriously, to have fun, to play, to creatively express who we are. This is a good

time to socialize and network, or do something completely unexpected, spontaneous and fun.

Mar 20, Wednesday. This [Spring Equinox](#) is accompanied by the 11th Occultation of Moon over Saturn since last summer. Occultations accelerate the energy and equinoxes open doorways into the mysteries. Acting with spontaneity, fun, and humor for the purpose of experiencing joy during this timing has the potential to pop us into a whole new magical reality.

Adding to the alchemy of this day, Pluto is also stationing retrograde at almost 18 Sagittarius. Remember, planetary stations often feel chaotic as the energies shift focus, in this case to deepen the inner shamanic journey.

The week of Mar 21 - 27 The Cancer [First Quarter Moon](#) represents the balance between light and dark. The Moon continues to increase in light until the Libra Full Moon on Mar 28.

Mar 21, Thursday. The [First Quarter Moon](#) (1 Cancer) is related to the Spring Equinox phase of the year. As both in the Lunar Cycle and the Solar Cycle this phase of the Moon and this phase of the Year is the most accelerated visibly rapid growth phase. This combined timing is ideal for putting ideas and plans into action. The Moon in Cancer reminds us to nurture ourselves and our dreams for maximum growth and fulfillment, similar to the ways we might nurture a rapidly growing child.

Mar 22, Friday. The Cancer Moon is occulting Jupiter at 6 Cancer. This is the third of three Moon Occultations of Jupiter this year and the seventh since last July, 2001. Again this month, like last month this occultation is occurring opposite Chiron (8 Capricorn) intensifying the healing energies now focused on the Cancer/Capricorn axis. Responsible nurturing is the key. How do we responsibly nurture ourselves without hurt or avoiding others? Practicing daily self-care and attuning to our personal needs and desires supports us in giving to others from wholeness and balance.

Mar 23, Saturday. This afternoon the Moon is Void of Course, meaning it is not making aspects to other planets until late tonight or early tomorrow when Moon moves into Leo. The void of course Moon signals a time when it may feel

challenging to have a clear direction. There may be some days when you are cruising along and all of sudden the momentum disappears, things start going haywire, unexpected things happen and you know it is not Mercury Retrograde. When this happens as the Moon is changing signs it's a reminder to kick back, relax and focus your attention inward. Once the Moon shifts to the new sign the energy shifts with it.

Mar 24, Sunday. Tonight it is worth noticing where the waxing Leo Moon is in relationship to the constellation of the Lion. The lion reminds us of stories of a golden age, when the Ancient and Shining Ones walked the Earth with radiant golden auras illuminating balance and harmony with all life. It is a time many of us yearn for in our deepest heart's desire. Leo reminds us we are the ones we have been waiting for, we are the Shining Ones returning, we are the co-creators of the living experience of Heaven on Earth. The question is, how do we know and then act from this knowing that this is what we are and this is what we are creating? Leo says it starts with truly loving ourselves and showing up with confidence.

Mar 25, Monday. Tonight, the waxing Leo Moon is passing by the fixed star [Regulus](#), the heart of the lion. Regulus is one of the four royal stars, "watcher of the North" and marking the gateway into the mysteries of the Sphinx. Esoterically the Sphinx is also known as the guardian to the Hall of Records. Noticing the Moon near Regulus tonight and tuning into this area of the sky is an opportunity to have a direct experience of these mysteries and it is through our direct experience of the mysteries that has the greatest meaning for us personally.

Mar 26, Tuesday. The Moon's journey through Virgo directs our awareness to the mysteries of Spider Woman who weaves the web and attunes to the natural cycles and rhythms of the Earth and Sky. When we consciously participate with the natural cycles we begin living in greater harmony and balance with all of life.

Mar 27, Wednesday. Today's Sun (6 Aries) square Jupiter (6 Cancer) is indicating the acceleration of Jupiter's forward motion. If we have prepared properly and done the inner work of the Jupiter Retrograde it is now time to begin an accelerated forward movement experiencing results that inspire and expand our horizons.

The week of Mar 28 to Apr 3 This week features a Libra [Full Moon](#) symbolizing the fulfillment, or fruition, of the seeds we may have coming to maturity, to their fullness, to fruition, to the place where the fruits or gifts are received. The Moon then begins to wane this week representing the dissemination or integration of these gifts. Once each year the Moon is Full in Libra illuminating the mysteries of conscious equal partnership, and how we can learn more about who we are, through our relationships with others.

Mar 28, Thursday. The annual Libra Full Moon (8 Libra) illuminates and brings greater awareness of the mysteries of conscious equal partnership and the opportunities this experience facilitates in learning more about who we are through intimate interaction with a partner. These teachings recognize when it is time to commit more deeply to a current relationship, or when it is time to complete a relationship and let it go, or when it is not about defining the relationship in old cultural terms, but finding new ways to harmoniously dance with one another and all of life.

This Libra Full Moon is occurring in a T-square with Jupiter (7 Cancer) who is expanding and magnifying our relationship intent and Chiron (9 Capricorn) who is facilitating deep core healing to transform any past wounding in these mysteries. This includes all possible relationships, including our relationship with the Earth, the Sky, the plants and animals, each other, ourselves, and all of life seen and unseen. This is a good time to reflect on our inner and outer relationship with life and what these relationships are teaching us about ourselves. What are we healing and transforming and what are we desiring to expand and magnify in this realm?

This also is the second brightest Full Moon this year. February was the brightest...20% brighter and 9% wider than normal. For those of you who missed the email I sent out in February about the brightest Full Moon this URL has the details.

http://science.nasa.gov/headlines/y2002/26feb_bimoonshine.htm?list608224

Mar 29, Friday. Today Mercury moves into Aries energizing the Spring Equinox marker in the sky for the fourth time this month. First Venus, then the Moon, then the Sun and now Mercury. Today Mercury is bringing us a message in relationship to the accelerated growth now occurring in this

seasonal cycle. Mercury the transformational messenger/magician brings information often through synchronistic events that provide important clues about our journey when we are paying attention.

Mar 30, Saturday. Moon moved into Scorpio late yesterday ending this month near where it began. The Moon is illuminating the mysteries of alchemical transformation through conscious death and rebirth. Scorpio connects to our heart's passion and what needs to die, i.e. what beliefs, ideas, concepts, habits, and attitudes can we shed, release, or transform to support the fullest connection to passionate, alive, life force energy.

Sun (10 Aries) sextiles Saturn (10 Gemini) late today indicating Saturn is nearing its annual conjunction with the Sun happening this year on June 9. This means Saturn continues moving at an accelerated rate through the sky still very near Aldebaran. (See Mar 4). The Sun is energizing Saturn with the qualities that assure success when we are focused in a good way on creating our reality. This also suggests that there is healthy forward movement now for collective humanity when we are aligned with our true purpose. Obstacles can more easily melt away, a clearer sense of direction and connection is possible along with a feeling of steady accomplishment. This is a great productive timing to consciously engage and to utilize over the next couple of months.

Mar 31, Sunday. Venus moves into Taurus where it remains until April 25. Venus (the divine feminine) is joining Mars (the divine masculine) in the mysteries of sacred pleasure, beauty, and intimacy, learning how to receive the fullness of these gifts in our physical experience. (See Mar 2). Venus doesn't catch up to Mars until early May, but it is worth noting the two of them visible in the western sky after sunset over the next few weeks.

Also today Sun (10Aries29) sextiles Neptune (10Aquarius29). Unlike Saturn this Neptune sextile to the Sun is indicating a slowing of Neptune's journey through the sky before it turns retrograde in May. Neptune is a gateway into the mysterious, or unknown realms that require the development of our intuition to navigate this vast arena of all possibilities and it is being energized by its sextile to the Sun. This indicates a timing that includes inspired and heightened intuition as a guiding principle for

finishing projects, dreaming up new projects or possibilities, or any other activities that help to bring the intangible visions and dreams into physical form. These tangible forms include but are not limited to art, drama, music, writing, dancing, math, science, magic, or discovering whole new worlds of possibility. As Albert Einstein reminded us in the beginning of this month..."The fairest thing we can experience is the mysterious. It is the fundamental emotion which stands at the cradle of true science..." This is a good time to allow the mysterious to inspire and expand your creative imagination and talents.
