

Blue Moon Shamanic Astrology Intensive:

Re-visioning Ourselves, Re-visioning the World

As Above, So Below. As Without, So Within. When we take these words deeply, we realize that the Turning of the Ages is not something that is happening to us, but rather something **we make happen – we create!** Collectively, we have the daunting task of creating/projecting new archetypes, new consciousness onto the stars; into our world. The power to make change is built around a **NEW** vision for a **NEW** future.

Shamanic Astrology provides us with tools to better understand ourselves, our past, and our unconscious, spiritual, life goals. Only by understanding our own past patterns and making our unconscious conscious can we **FREELY CHOOSE** our new future. We will deeply explore the nature of the 12 mystery schools, or tribes that comprise the wheel. As individuals, we will investigate our own unique relationship to the masculine and feminine, uniting them through the **inner sacred marriage** work. Through our birthcharts we will uncover, visualize, and build energy around our future life intentions. Using the self knowledge thus gained, we will join together to envision a civilization that is born out of, and able to support these new realizations/manifestations of **SELF!**

This workshop is intended to guide you in accessing the deepest sources of your power and using them to re-create yourself and in so doing, the world. **Through Shamanic Astrological investigation of your birthchart, Sound and Color Work/Therapy, Shamanic drumming, chanting, ceremony, and exercises we will experience ourselves, and each other as prototypes of the new human potential.**

This is an **experiential intensive** designed for maximum participation and involvement in addition to explanation and dialogue. Come prepared to discover and use the creator within and to enjoy co-creating with others in the circle of life. With mutual honor, respect, and humor we will build new archetypes, new expressions of culture that can support and nurture human life on this planet the way we know is **sustainable, unified, and led from the heart.**
