**Rather VENUS Represents an Exploration of the Divine Feminine through many different archetypes**

**For women it is their emerging feminine identity

## Rewriting the Story of Survival of the Fittest

It is not the strongest of the species that survive,  
nor the most intelligent,  
but the one most responsive to change.

*Charles Darwin (1809 – 1882)*

The ancient Sumerians and Babylonians, ceremonially re-enacted the entire Venus Cycle every 8 years when Venus Rose as Morning Star at the Spring Equinox. Their collective ceremony was based on the mythic journey of Inanna or Ishtar descending into the underworld. They did this knowing the power of collective intent.

Venus spent nearly 9 months as  
morning star from June 09, 2020 to  
Feb 13, 2021

She was releasing all distortions and  
blocks in the way of her expressing  
her authentic self.

Venus/Inanna descends through the  
chakra gates as symbolized by the  
Venus Moon conjunctions

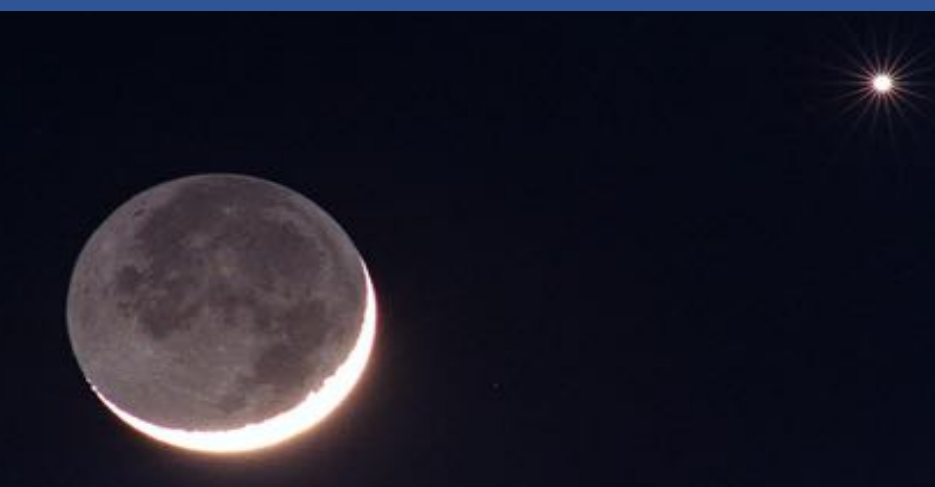

# Underworld Venus Traveling with the Sun

Venus spends Feb 13 to May 03,  
2021 (about 85 days) traveling  
with the SUN

Hidden by the light - under going  
an alchemical transformation of  
death and rebirth into her  
butterfly self

# The Rainbow Goddess Evening Star Journey May 03, 2021 to January 02, 2022

Venus as evening star is reclaiming her authentic Playful Rainbow Goddess Self when she conjuncts the Moon representing the Chakras.

The Venus cycle ends and begins again January 14/15, 2022 with the Capricorn Wise Grandmother Meta Goddess on the World Stage until August of 2023

Venus is considered the sister planet to Earth about the same size and Venus mirrors Earth in many ways including spinning the opposite direction as the Earth.

Venus makes one full rotation every 243 days – the Earth makes one rotation in 24 hours.  
In 243 years Venus rotates 365 times.

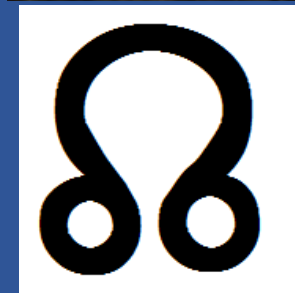

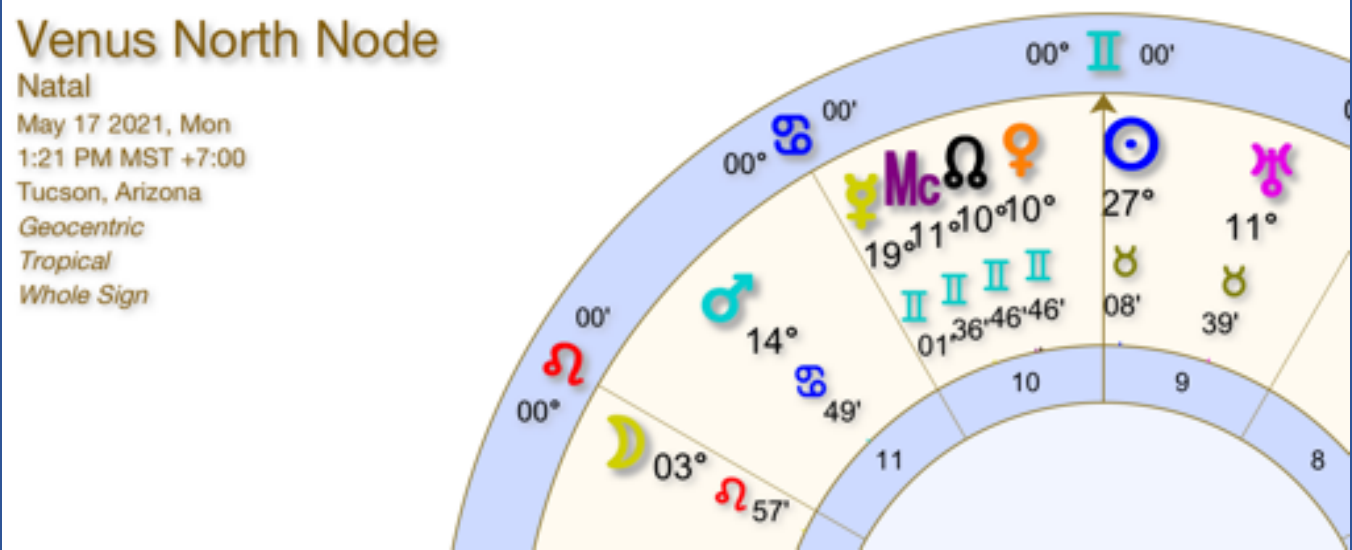

Earth rotates 365 times in one year and there are 243 years between Synodic Venus transits over the Sun in the same area of the sky.

- **The North Node is where we are headed, it is our co-created Destiny** where the seeds we have planted are coming to fruition.
- **North Node in Gemini (With Venus exact Aug 05, 2020 and May 17, 2021)** Cultivates Freedom, Creativity, Magic **Challenge:** too much information, too many possibilities creating a distraction from seeing and embracing new opportunities.  
It is time to act on new ideas, new perspectives, and new insights that are yours to experience.
