The Libra Venus Cycle

Is About:

- Continuing to dismantle patriarchy's view of woman as property, meaning lesser value in relationship and all other unequal relationships present in our current culture.
- Balanced Relationships that include Reciprocity...Meaning equal exchange of value maintaining the cosmic balance
- Valuing Ourselves and Each Other for the Equal Importance and Significance we all bring to the table
- How to support different perspectives recognizing we need to have insights and wisdom from all places on the wheel of life.

Facts About Mars

- It is the 4th Planet from the Sun and was named after the Roman God of War
- Depending on the time of its cycle, Mars can be the 2nd Brightest Planet to the 5th Brightest visible planet
- Mars takes 1.83 Years to complete 1 Orbit around the Sun
- Mars takes (on average) about 2 months to traverse 1 astrological sign

The Mars Cycle

- Mars Returns to the same “meeting place” with the Sun every 779-780 days (on average) or 25 months – This is known as a “synodic cycle”
- The sign that Mars is in at the time of “opposition” to the Sun becomes an “overtone”. The point of opposition is also known as the “acronychal rise” of a given planet
- On July 26, 2018, Mars had its *acronychal rise* in the sign of Aquarius, which became the current Mars *overtone*
- Mars moves through the zodiac 42 times (37 synodic cycles) in almost exactly 79 years

Mars in Aquarius

Mars entered the sign of Aquarius on May 15th, signaling the beginning of Phase Zero and the herald of the NEXT synodic cycle of Mars. This will make the overtone Aquarius

Aquarius is the grand experimenter, an avant-garde and the leading edge of cosmic thought itself. Aquarius is directed as a novel idea generator

Being the most revolutionary archetype, Aquarius can seed the thoughts of breaking through old structures and systems that no longer work for the collective. It is a free-electron of thought-form that goes beyond the mundane rules of what is already in place

The intent of the masculine in Aquarius is to let go of previously held attachments to what Aquarius scientist archetypes are and move into a new way of exploring it between the mind and body.

Mars will spend about 6 months in this sign (with a little time in Capricorn) until it reaches the sign of Pisces on November 15th

The Masculine and Aquarius

Issues that Confront Our Age:

- Breakthroughs and uses of science and technology
- Idealism in creating a more perfect society
- Ascension and Light-Polarization / Denial of the Body
- Detachment from Human Reality
- The Human and Global Experiment

Mars Aquarius Overtone last happened in the years of 1971-1973, just after the 1969-71 period of the Mars Sagittarius Overtone.

In the 2016-2018 Mars Synodic Cycle in Sagittarius, an overarching theme of “Truth” and what it means to humanity was embedded in all that was. It was a social battle of propaganda and lies and alternate facts. Human exploration of new frontiers showed up strongly during this time. Saturn’s passage through Sagittarius 2015-2017 was a large part of that theme as well.

Mars Synodic Cycle Phase 3

The Underworld Phase

PHASE THREE – Similar to person's initiations in their late 30's-46, begins with Mars entering the underworld. It lasts for 3-4 months, ending when Mars has separated from the Sun by 15 degrees and rises as a very dim morning star.

We have compared this phase to shamanic death and rebirth, such as a Sun Dance or Okepa ceremony. Its a time of surrender, and either chosen or forced powerlessness for the purpose of developing more humility and maturity.

This then corresponds to the cycles of the "mid-life crisis", including the Pluto Square (in current generations), the Neptune square and the Uranus opposition.

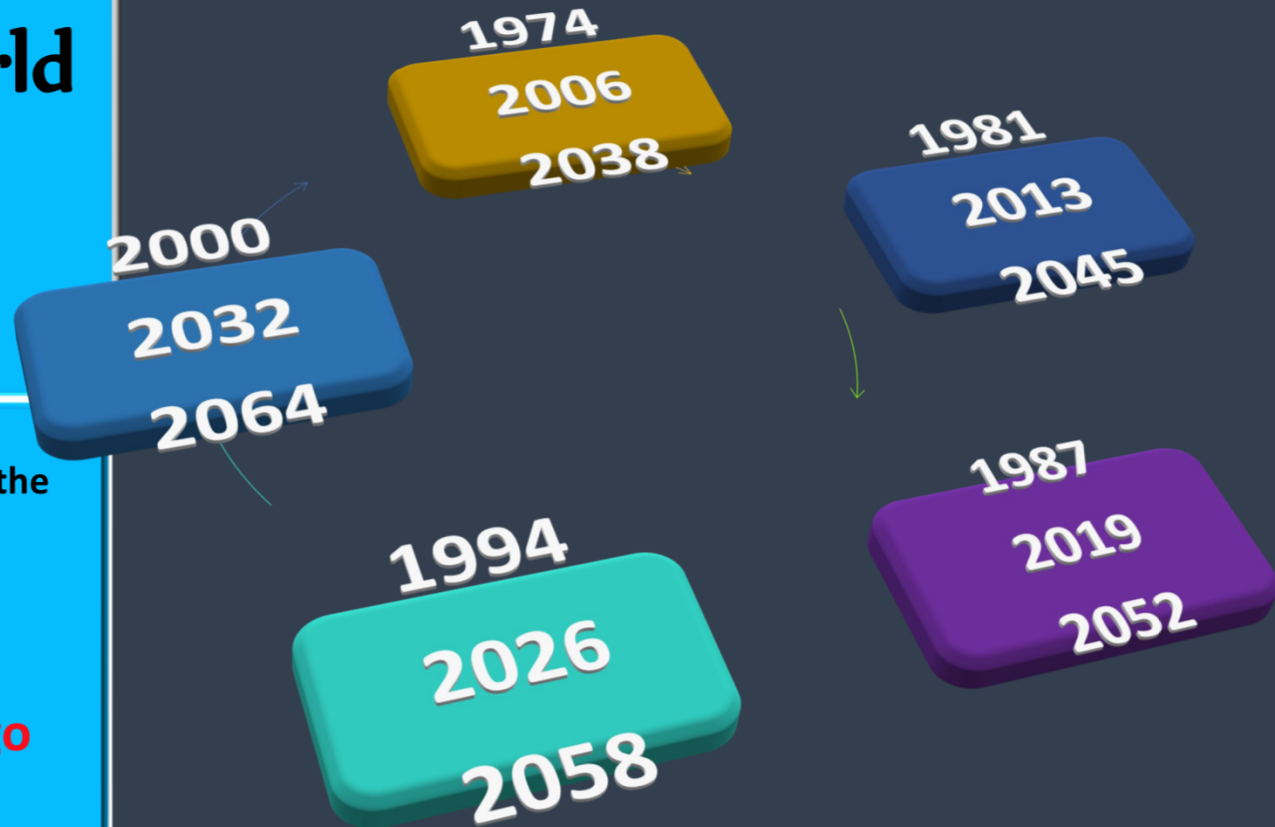

Therefore we are looking roughly at Age 37-38 up until possibly the Saturn Opposition at around 44 or maybe lasting until the Nodal Reversal at 46.

Seeing the Sagas change over the centuries

- **Just as the Great Saga shifts over time into a different kind of Saga, the Underworld Saga we currently experience was visible regularly in the morning sky in 1833 and before. The Underworld Saga will again be visible regularly in evening sky in 2060 and beyond (but then it wouldn't be called the "Underworld Saga")**
- **One of the Sagas experienced in the late 1700s and 1800s was one that featured Mars and Venus have one conjunction in the morning sky, one in the evening sky and a 3rd in the glare of the Sun (or underworld), which could tentatively be called the "Triple Sky Saga"**
- **Another example of new set of Sagas between 1753 and 1760 as the**
 - Underworld Saga became a Saga that featured 1 morning sky conjunction of Venus and Mars
 - a Dumuzi/Rapunzel that later evolved into the Great Saga (with a transitional period of a Morning/Evening/Underworld or "Triple Sky" conjunctions of Venus and Mars)
 - The current "Dumuzi/Rapunzel" Saga was an "Underworld" Saga

Potential Shadow of Venus Mars Conjunction in Underworld

- Possible encounter around the tension between our desire for autonomy and freedom vs. our need for healthy bonds with others.

We Enact Ancestral Healing Empowered by the Capricorn Confluence

- Personal experiences might help us face, what we need to heal, historic trauma lived by our ancestors where individuality, self expression and actualization was sacrificed for the good of the whole.

OR

- Personal experiences could engage healing the ancestral wound of colonization, where the bond to Earth Family was disrupted by Patriarchal Sky God cultures without care for intimate bonds and Mother Earth.

In 2006 Cayelin and Peter chose the Venus Mars Conjunction with the Sun to get married.

Less than 24 hours after the Libra New Moon, Venus and Mars were together with the Sun (the source) in the last degrees of Libra, the primary archetype focused on the path of conscious, co-creative and collaborative partnership.

Venus and Mars were off the world stage disengaged from the beliefs connected to the old relationship paradigm.

They were with the Sun sourcing new ways of expressing sacred union – sacred marriage.

Almost 13 years later our marriage is better and more fulfilling than ever.

Questions to Consider:

How are the energies of the archetypal feminine and the archetypal masculine showing up for me?

Does one have a stronger voice than the other?

Are they working together harmoniously?

How committed am I to developing both feminine and masculine energy in their whole and sovereign expression within?

How might this sacred union within give me greater access to my own creative powers I haven't even yet imagined?

Imagine a fully empowered masculine Mars joining in sacred union with a fully empowered feminine Venus as they meet with the Sun to source new ways of relating.

Each is ready to meet the other in new ways with great love, respect and recognition of the value each brings to further empower their conscious, co-creative union establishing a new pattern of conscious relating that honors the gifts each bring.
